BROWN'S BRONCHIAL TROCHES

COLDS! COUGHS!!

BROWN'S BRONCHIAL TROCHES

Cure Cough, Cold, Hoarseness, Influenza, any Irritation or Soreness of the Throat, relieve the Hacking Cough in Consumption, Bronchitis, Asthma and Catarrh, clear and give strength to the voice of

PUBLIC SPEAKERS & SINGERS.

Few are aware of the importance of checking a Cough or "slight cold" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs.

Brown's Bronchial Troches

Are a most valuable article, especially so at this season of the year, when

Coughs, Colds, Bronchitis, Influenza, Hoarseness and Sore Throat

are so prevalent. The Troches give sure and almost instant relief.

"That trouble in my throat, (for which the "Troches" is a specific) having made me often a mere whisperer." N. P. WILLIS.

"I recommend their use to Public Speakers."—Rev. E. H. CHAPIN.

"Have proved extremely serviceable for Hoarseness."
Rev. H W. BEECHER.

"Almost instant relief in the distressing labor of breathing peculiar to Asthma." Rev A. C. EGGLESTON.

"Contain no Opium or anything injurious."
Dr. A. A HAYES, *Chemist, Boston.*

"A simple and pleasant combination for Coughs, &c."
Dr. G. F. BIGELOW, *Boston.*

"Beneficial in Bronchitis." Dr. J. F. W. LANE, *Boston.*

"I have proved them excellent for Whooping Cough."
Rev. H. W. WARREN, *Boston.*

"Beneficial when compelled to speak, suffering from Cold."
Rev. S. J. P. ANDERSON, *St. Louis.*

"I heartily unite in the above commendation."
Rev. M. SCHUYLER.

"Effectual in removing Hoarseness and Irritation of the Throat, so common with Speakers and Singers."
Prof. M. STACY JOHNSON, *LaGrange, Georgia,*
Teacher of Music, Southern Female College.

"I have been much afflicted with Bronchial Affection, producing Hoarseness and Cough. The *Troches* are the only effectual remedy, giving power and clearness to the voice."
Rev. GEO. SLACK, Min. Ch. of Engand, Milton, *Canada.*

Never wear India-rubber boots in cold, dry weather.

Those who are easily chilled on going out of doors should have some cotton-batting attached to the vest or outer garment, so as to protect the space between the shoulder-blades behind, the lungs being attached to the body at that point; a little there is worth five times the amount over the chest in front.

Never begin a journey until breakfast is eaten.

After speaking, singing or preaching, in a warm room, in winter, do not leave it for at least ten minutes, and even then close the mouth, put on the gloves, wrap up the neck and put on a cloak or overcoat before passing out of the door; the neglect of these has laid many a good and useful man in a premature grave.

Never speak under a hoarseness, especially if it requires an effort or gives a hurting or painful feeling, for it often results in a permanent loss of voice, or a long life of invalidism.—*Hall's Journal of Health.*

28	6	6 39	5 47	11 8	0 12 44	7 52		12 44		6 7	♓		"Our orchards here

did well when the country was new and the clearings were small. But as our forests recede from the orchards, the bark on the west side of many a fine tree is killed by the piercing west wind. Some of our neighbors have very considerately preserved belts of timber, and clusters of shell-bark, black walnut and butternut; while others, like Time, have cut down all, and are now reaping the fruits of their folly instead of their orchards."—*Valley Farmer.*

Barns and Stables.—Arrange the old ones, and plan the new ones, if to be built, for convenience in threshing, feeding, manure making, etc., and for the comfort of stock. Keep the barn tidy. Fowls should not be allowed to roost around where they choose. Tools, harnesses, etc., should be kept in appropriate rooms. Allow no manure to accumulate against the sides or sills of the building.

Breeding Animals.—Give them generous fare, but not a surfeit.—Keep well sheltered. Their progeny will repay all such care.

Cattle.—Keep them in warm stables, with plenty of bedding.—Feed regularly and with a variety of food. Roots, oil meal with hay, and an occasional allowance of unthreshed oats cut fine, if you have any or all these, will pay. Use the card or curry-comb frequently. Break steers. Handle heifers to prepare them for milking.

DELICIOUS PUDDING.—Bake common sponge cake in a flat bottomed pudding dish. (Several may be prepared at one time, as they are quite as good when a few days old and very dry.) When desired for use, cut it into sixths or eighths, split each piece, butter them and return them to their places in the dish. Make a custard with four eggs to one quart of milk, season and sweeten to the taste, and pour it over the cake. Bake half an hour. The cake will swell and fill the custard.

PATIENCE WITH CHILDREN.—If I were asked what single qualification was necessary for one who has the care of children, I should say patience—patience with their tempers, patience with their understandings, patience with their progress. It is not brilliant parts or great acquirements which are necessary for teachers, but patience to go over first principles again and again; steadily to add a little every day; never to be irritated by wilful or accidental hindrance.

When the plant is large enough to be set out, dig a hole to receive the pot, cut the stitches and carefully remove the oil cloth and lay it away for another year. When well done, the plant will go on growing without delay.

HOT BEDS.—You who love the garden, and intend that your tables shall be graced with the delicacies of the season, will not forget to prepare the hot bed in good time. Do not look upon it as a *scientific* operation, one requiring a carpenter or any other artizan to construct it, but take the square, saw and hammer, and make it yourself in double-quick time. Purchase the sash, if you have no old ones. In some sheltered and sunny spot throw out the earth to the depth of a foot, fill in with horse manure, and on that six inches of fine loam or leaf mould, and put on the glass. Water properly, and when the whole is sufficiently warm put in the seeds.

BAKED CORN PUDDING.—To one teacupful of corn meal add one quart of milk, three eggs, and a little ginger. Bake one hour.

WHITEWASH.—Whitewash adds so greatly to the picturesque in the cottage and the farm-house, and is such an absorbent of impure odors, that it should be freely used, at least in the spring.—Take half a bushel of fresh burned white lime, and slake it either with hot or cold water, in a tub or barrel. When thoroughly slaked dissolve in the water required to thin the lime, two quarts of common salt; stir it thoroughly; add one quart of sweet milk, and it is ready for use, to put on with a brush, frequently stirring it up. Glues and gums cause it to scale off in hot weather.—*Hall's Journal of Health.*

COTTAGE PUDDING.—Stir well together 1 pint of flour, 1 teaspoonful soda, 2 teaspoonfuls cream tartar, and 1 teacupful of sweet milk. Put in a deep pan, and bake half an hour. Serve up with sauce made to the taste.

WHEAT FLOUR PUDDING.—Very nice. For *baking*, use 1 qt. milk, 9 eggs, 9 table spoonfuls of flour, and 1 teaspoonful of salt. For *boiling*, 1 qt. flour, 1 qt. milk, 5 eggs, 1 teaspoonful of salt.

I raised a fine crop of Blue Gages last season on a tree which has been stripped of its fruit every summer for several years. I believe the frequent use of this wash promotes the health and vigor of the tree.

RAISING CALVES.—After trying various ways in raising calves, I find the following not only the cheapest, but for aught I see as well for the animal as to let them suck the cow or feed them with warm milk from her, wintering better, and worth more when a year old. Take them from the cow at three days old, milk and feed them till three or four weeks old, and the next three weeks use a small teacupful of wheat shorts, well stirred in a small quantity of cold water, then add as much boiling water as will make one-half the meal for feeding, putting in new milk for the other half, or even skim milk that is sweet, and the calf will not scour, but will do first rate, if you give scalded shorts alone the fourth month.—*J. Wadsworth, in Country Gentleman.*

WHEN I see a little boy willing to taste strong drink, I think it a sign that he will be a drunkard.

to be a little too green than too dry. If, on putting it into the barn, there is danger of "heating in the mow," put on some salt. Cattle will like it none the less. Heat, light and dry winds will soon take the starch and sugar, which constitute the goodness of hay, out of it, and with the addition of showers, render it almost worthless. Grass cured with the least exposure to the drying winds and scorching sunshine, is more nutritious than if longer exposed, however good the weather may be. If ever cured, it contains more woody fibre and less nutritive matter. The true art of hay making, then, consists in cutting the grass when the starch and sugar are most fully developed, and before they are converted into seed and woody fibre; and curing it up to the point when it will answer to put it into the barn without heating, and no more.

If done in the spring or summer, by the next spring it will shovel out fully decomposed, the bones being as soft as chalk. Then, add all your hen manure, shovel and rake it over once a week, for three or four weeks before planting time; by that time it will be finely powdered. Put about equal to a handful of the compost into a hill, for corn, potatoes, squashes, &c., when it will be found to forward crops.

MAKING VINEGAR.—Vinegar, according to a writer in the *Genesee Farmer*, is cheaply made. We republish his recipe:—To eight gallons of clear rain water add three quarts of molasses; put into a good cask; shake well a few times, then add two or three spoonfuls of good yeast cakes. If in summer, place the casks in the sun; if in winter, near the chimney, where it may warm. In ten or fifteen days add to this liquid a sheet of brown paper, torn in strips, dipped in molasses, and good vinegar will be produced. The paper will in this way form what is called the 'mother' or life of vinegar.

SUET PUDDING.—One teacupful of molasses; one teacupful of sweet milk; one-half teacupful of dried currants; three teacupfuls of flour; one-half to three-quarters of a cup of chopped suet, or one-half a cup of melted butter; one teaspoonful of salt; one of soda; one of ground cloves; one of ground cinnamon, and one-half a nutmeg. Mix well together, put in a buttered pan, and set in your steamer. Let it cook three hours, and serve with sauce, or cream and sugar. One-half cup of stone rasins added will make it richer.

4	5	5 26	6 32	13 6	11 58 53	7 7	1 7		1 2	♑	water in such proportions that a thick mixture is cooling, which becomes nearly solid. The coarse Scotch oat-meal is far superior for these purposes to the fine meal ground in England. The most approved method of making porridge is to strew oat-meal with one hand into a vessel of boiling water, (to which salt has been previously added,) so gradually that it does not become lumpy, stirring the mixture at the same time with the other. After the requisite quantity has been stirred in (namely, about two large handfuls of coarse oat-meal to a quart of boiling water,) the whole should be allowed to stand by the twenty-five to thirty minutes; during this time it thickens considerably. As thus prepared, it is usually eaten with the addition of milk. It is an excellent article of diet, and especially adapted for children, being nutritious, wholesome, palatable and very economical. Oat-meal should be purchased at places where there is a quick sale, as, after being kiln-dried, it rapidly absorbs moisture from the air, and becomes far less palatable —*Tegetmeier's Domestic Economy.*

To make Rhubarb Wine.—To one gallon of water, add four lbs. of ripe rhubarb, thoroughly bruised; let it stand in the tub 4 days; stir it frequently, then strain it; to one gallon of liquor, put four lbs of good coffee sugar, the juice of one, and the peel of one-half a lemon; to every ten gallons, one ounce of isinglass and one pint of brandy; put it in a cask; after the fermentation is over, bung it tight; let it stand one year or more, and then bottle it for use. If kept three or four years, it will sparkle like champagne.—*Germantown Telegraph.*

1	4	5 58	5 42	11 44	11 49 39	3 16	10 21	mor		A WISE SAYING FOR FARMERS.—An English farmer recently remarked that "he fed his land before it was hungry—rested it before it was weary, and weeded it before it was foul." We have seldom, if ever, seen so much Agricultural wisdom condensed into a single sentence. It would be difficult to avow an Agricultural practice each particular of which would be more opposite to the practice of the land-killers and skinners of the South. Such persons do not feed their land at all. Though land may have nine lives like a cat, yet it may die at last of starvation. 'Weary land.' How apt an expression. Not utterly exhausted, but tired wearied. Reader, have you not some land which, next summer, will pant and blow and struggle under the burden of a starveling and sickly stalk of corn. "Weeded it before it was foul."—Why some of our planters raise weeds for manure. Vile pests, of no use to man or beast, are suffered to grow up and encumber the ground, merely for the sake of the privilege of burying their dead bodies to supply vegetable matter to the soil. On a perfectly conducted plantation, no plant would be suffered to mature its seed which was not of some known and positive utility. Peas or Clover are better than weeds—they feed both the soil and domestic animals, and give no trouble to succeeding crops. Remember the practice of the English farmer. Do not wait until your land begins to get poor before you manure it. If it is rich, make it richer. Do not wait until your land begins to fail before you rest it—give it rest in time to prevent it being tired. Do not wait until your plantation is stocked with weeds before you begin to destroy them. One weed destroyed this year will save much hoeing next year. Manure soon and well, give abundant rest and cultivate clean. He is a good farmer who observes these rules.—*Southern Cultivator.*

SEASONABLE HINTS.

How to make Wool sell in these times.—The following directions are contributed for the Rural New Yorker by an experienced Boston wool agent:

First. Before washing, tag your sheep, and sell the tags to peddlers, or get them worked for family use. Second. Wash immediately after a rain: if not convenient to do this, take your flock to the water and dip each sheep in till you go through the whole lot, then commence washing on those first dipped, and wash till the water runs clear. Third. After washing, drive to a clean grass pasture, and, if dry weather, then commence shearing in four days and never let them run over six or eight days at most; if rainy so as to delay, get your sheep under cover, and keep them in a close place a few hours, and they will soon dry from animal heat. Fourth. Shear in a good clean place, and keep all dirt and filth away from the wool; do up the fleeces, sheared side out; use the small twine, neglect the large wholly; do not roll them too tight, and pass the twine around each fleece from two to four times, being sure to trim all loose ends of the twine from every fleece, as these on the wool make it appear very bad. Fifth. Pack your fleeces in a clean, light place, and put all unwashed and heavy buck's fleeces by themselves; then the buyer can see all your wool at once, without handling but little, and be prepared to make you an offer.—Keep you wool out of all hogsheads and boxes, for in them it always shows bad. If you follow these instructions, be assured your wool will sell.

How to tie a Bag.—Double the string, put it around the bag, and pass the two loose ends through the loop at the other end; then draw one loose end one way and the other in the contrary direction, take one or two turns, and then tie.

before him moved in its round of duties, and he feels himself connected by a visible link with those who follow him, and to whom he is to transmit a home. Perhaps his farm has come down to him from his fathers. They have gone to their last home; but he can trace their last footsteps over the scenes of his daily labors. The roof which shelters him was reared by those to whom he owes his being. Some interesting domestic tradition is connected with every inclosure. The favorite fruit tree was planted by his father's hand. He sported in boyhood beside the brook which still winds through the meadows. Through the fields lies the path to the village school of earlier days. He still hears from his window the voice of the Sabbath bell which called his fathers to the house of God; near at hand is the spot where his parents laid down to rest, and where, when his time has come, he shall be laid by his children. These are the feelings of the owners of the soil. Words cannot paint them; gold cannot buy them; they flow out of the deepest fountains of the heart; they are the life-springs of a fresh, healthy, and generous national character.—*Edward Everett.*

DR. MARSHALL'S HEADACHE AND CATARRH SNUFF.

This Snuff has thoroughly proved itself to be the best article ever known for curing the Catarrh, Cold in the Head, and the Headache. It has been found an excellent remedy in many cases of Sore Eyes. Deafness has been removed by it, and Hearing has often been greatly improved by its use. It purges out all obstructions, strengthens the Glands, and gives a healthy action to the parts affected. It is recommended by many of the best physicians, and is used with great success and satisfaction everywhere.

More than twenty-five years' experience has proved its great value; and at this moment it stands higher than ever before. A large number of the most respectable Druggists in Boston and New York, in a certificate signed by them in 1854, say:

The undersigned, having for many years been acquainted with Dr. Marshall's Headache and Catarrh Snuff, and sold it in our wholesale trade, cheerfully state, that we believe it to be equal in every respect to the recommendations given of it for the cure of Catarrhal Affections, and that it is decidedly the best article we have ever known for all the common diseases of the head.

BEWARE OF COUNTERFEITS!—A fac simile of the signature of the Proprietor, CHARLES BOWEN, is on every bottle. Sold by Druggists everywhere.

These kegs have an extra Coating of Shellac Varnish on the inside, which effectually prevents leakage, or the wood absorbing the oil. They can be readily converted into paint buckets or pails, each keg being furnished with ears, and a suitable bail, which is sprung into the bottom, and is not liable to injury by rough handling while in transit. These kegs can be unheaded by removing ONLY the upper hoop, (as the head rests on a shoulder instead of entering a groove,) and inserting an end of the bail in the staple on the head.

All orders addressed as above will receive prompt attention.

THE SCIENCE OF HEATH.

EVERY MAN HIS OWN PHYSICIAN.

Holloway's Pills and Ointment.

DIPTHERIA, ULCERATED SORE THROAT, AND SCARLET AND OTHER FEVERS.

Any of the above diseases may be cured by well rubbing the Ointment three times a day into the chest, throat and neck of the patient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Ointment will do its work at once.

BILIOUS DISORDERS.

In whatever form disease attacks the liver, it is repelled and exterminated by these searching, painless and irresistible Pills. Let the sick whom the faculty have abandoned, resort with confidence to this powerful antibilious agent, and a restoration to health and activity will be the unvarying result.

DYSPEPSIA.

The great scourge of this continent yields quickly to a course of these antidyspeptic Pills, and the digestive organs are restored to their proper tone; no matter in what hideous shape this hydra of disease exhibits itself. this searching and unerring remedy disperses it from the patient's system.

Piles, Fistula, Bad Legs and Ulcers.

Cases of many years standing that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

SICKLY FEMALES

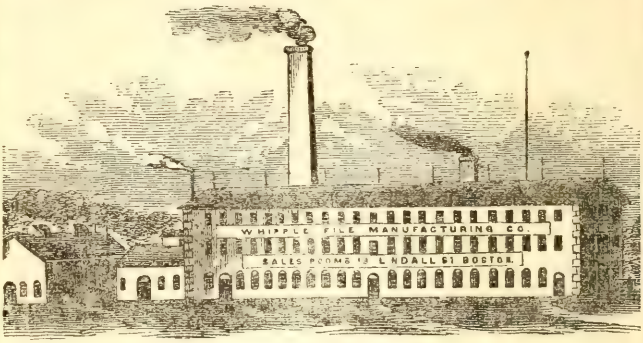
Should lose no time in trying a few doses of these regulating and renovating Pills; whatever may be their complaint, they can be taken with safety in all periodical and other disorganizations; their effect is all but miraculous.

☞ *** Sold at the Manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York. and by all respectable Druggists and Dealers in Medicines throughout the civilized world, in pots and boxes at 25 cents, 63 cents and $1 each.

There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

The Whipple File
MANUFACTURING COMPANY.



THE HIGHEST PREMIUMS

Over all competitors, have been awarded to THE WHIPPLE FILE MANUFACTURING COMPANY, Ballardvale, Mass,

FOR THEIR

MACHINE CUT FILES.

The following testimonials, selected from others, attest the superiority of these FILES over all others in use:

NEW YORK, February 21, 1861.

I have given the Files made by the Whipple File Manufacturing Company, at Ballardville, Mass,, a fair trial, and I must say they far surpass any Files I have ever used.

JOHN W. ALEXANDER,
Foreman Shop No. 2, Novelty Iron Works, N. Y.

ISLAND POND, Vt., Sept. 24th, 1860.

I have given the Files made by the Whipple File Manufacturing Company, a severe trial, and find they not only stand the roughest usage, but that their sharpness holds out and equals any I have ever used. When this File comes into general use, the expense of fitting up will be much reduced. WARREN NOYES,
Foreman Grand Trunk Railroad Machine Shop, Island Pond, Vt.

MORGAN IRON WORKS, N. Y., March 23, 1861.

This is to certify that I have used the Files of the Whipple File Manufacturing Company, Ballardvale, Mass., and find them superior to any now in use. JAMES SIMPSON,
Foreman Finishing Shop.

VEGETABLE PULMONARY BALSAM,

The GREAT STANDARD REMEDY for PULMONARY DISEASES, containing neither Prussic Acid, Tartar Emetic nor any deleterious drug. Extensively used, tested and approved in New England, Canada and British Provinces during a period of over Thirty Years by eminent Physicians, Clergymen, Professors of Colleges, Theological Seminaries, Scientific and distinguished Public Men, in fact by all classes in the community. See Certificates in pamphlets and wrapper, to bottle, among which are:

REV. DR. LYMAN BEECHER, late President of Lane Theological Seminary, Cincinnati, Ohio.

The late REV. DR. LEONARD WOODS, Abbott Prof. of Theology in Andover Theological Seminary, Mass.

HON. D. P. THOMPSON, late Secretary of State of Vt.

☞ The basis of this medicine was a private recipe of a distinguished physician. Its ingredients have been made known to, and approved by our first physicians.

One physician writes, "I with confidence recommend it as superior to any other preparation for the above complaints."

Another says, "I have used it with unform success, and can confidently recommend it for all those complaints for which it is offered as a remedy."

☞ PARTICULAR NOTICE.—In connection with our old 50 cent article, we now put up a $1 size, in large square bottles with rich enameled blue wrappers, gilt directions, and fac simile of Wm. Jon'n Cutler, containing nearly four times the quantity of the smaller size.

☞ Beware of counterfeits and imitations, in part bearing the name. Enquire for the article by its whole name, and see that it has the fac simile of Wm. Jon'n Cutler upon the copy right outside the wrapper. Each bottle and seal is stamped "Vegetable Pulmonary Balsam."

Prepared only by REED, CUTLER & CO., Druggists, Boston, Mass., and sold by Druggists, Apothecaries and Country Merchants generally. Price, large size, $1, small size, 50 cents.

WHAT CAN BE DONE WITH AN ARTIFICIAL LEG.

The following letter, testifying to the great excellence of the "Palmer Artificial Leg," manufactured in Boston, will be read with interest by all:

PROVIDENCE, May 22, 1861.

Messrs. PALMER & Co., Boston: *Gentlemen*—It is thought by those unacquainted with the operation of artificial legs, that those who wear them are incapacitated for the "rough and tumble" of life. my experience does not confirm that conclusion. Being somewhat of a military man, I "enlisted," hoping my loss would not be discovered. The officers of the corps to which I belong, the "Marine Artillery," did not discover that I was lame, although I had *drilled every night for a fortnight.* I succeeded so well that I was selected as orderly sergeant, but on inspection by the physician, my wooden limb was discovered, to their great astonishment, and I was obliged to retire. But it shows the *great naturalness* and wonderful efficiency of your invention. I go hunting quite frequently, and am on a steady tramp from 5 o'clock in the morning till 9 o'clock at night. These are literal facts, which I think should be read and known to all who require the "Palmer Artificial Leg." Yours truly, J. P. BLAKE,

296 Broad Street, Providence, R. I.

THE PALMER ARTIFICIAL LEG.

Acknowledged as being the *only* successful invention of the kind in the civilized world. At the World's Fair in London it received the GREAT PRIZE MEDAL over thirty-five competitors from all parts of Europe. Pamphlets containing a full description of the Invention, with certificates from persons wearing the "Leg," sent *free* to all applicants. Address PALMER & CO.,

MAYNARD & NOYES'

BLACK WRITING INK.

Testimony of Parties who have used it for more than a Quarter of a Century.

REGISTRY OF DEEDS OFFICE,
Boston, January 10, 1859.

MESSRS. MAYNARD & NOYES—*Gentlemen:* I am glad that longer use of your Writing Ink enables me to repeat the testimony given in its favor many years ago. I have used it in this office thirty-seven years, and my oldest records are as legible and black as when first written. This rare quality for permanence renders it invaluable for State and County Records, and all mercantile purposes, where it is important that the writing should remain legible and unchanged in color by the lapse of time.

HENRY ALLINE, *Register of Deeds.*

The following extract from a letter of a well known and long established Bookseller in Dover, N H., is like many others the Proprietors are constantly receiving:

"After trying various kinds of Ink, most of my customers come back to yours. I am tired of the miserable compounds offered every little while, pretending to be superior to all other inks, and will have nothing further to do with them I have used your Ink on my books over twenty-six years, and my customers can see how it stands against time. Entries made in 1832 are as fresh as those made during this year."

Dover, N. H., Oct. 16, 1858.

Maynard & Noyes' Copying Ink.

This Ink yields a copy as distinct and perfect as the original. It also combines all the properties of our writing ink, for which it can be substituted.

Maynard & Noyes' Carmine Ink.

This article is a beautiful red or crimson color, and surpassingly brilliant and rich. It is free from sediment, and will not mould, fade, or turn dark by exposure to the air.

The above popular Inks, together with Blue, Red, Indellible and Stencil Ink, Chemical Writing Fluid, Ink Powder, &c., is for sale by the Manufacturers, **Nos. 51 and 53 Water St., Boston,** and by Stationers and Hardware Dealers generally.

MAYNARD & NOYES'

BLACK WRITING INK.

Testimony of Parties who have used it for more than a Quarter of a Century.

REGISTRY OF DEEDS OFFICE,
Boston, January 10, 1859.

MESSRS. MAYNARD & NOYES—*Gentlemen:* I am glad that longer use of your Writing Ink enables me to repeat the testimony given in its favor many years ago. I have used it in this office thirty-seven years, and my oldest records are as legible and black as when first written. This rare quality for permanence renders it invaluable for State and County Records, and all mercantile purposes, where it is important that the writing should remain legible and unchanged in color by the lapse of time.

Eclipses.

In the year 1863 there will be two Eclipses of the Sun and two of the Moon.

I. A partial Eclipse of the Sun, May 17th, invisible in Vermont. ☾ in R. A., May 17th, 0h 27m evening. The Eclipse will be visible from the Northern and Western parts of North America, from the Northern part of Asia, and from the Central and Western parts of Europe.

II. A total Eclipse of the Moon, June 1st, partly visible as follows:

First contact with the shadow, June 1st, 4h 55.7m evening.
Middle of the Eclipse, " " 6h 35.7m "
Moon rises, " " 7h 32.7m "
Last contact with the shadow, " " 8h 15.7m "

III. An annular Eclipse of the Sun, Nov. 11th, invisible in Vermont, but visible from the Southern parts of Africa, Australia and South America, and from the Southern Ocean.

IV. A partial Eclipse of the Moon, November 25th, visible as follows:

First contact with the shadow, Nov. 25th, 2h 25.5m morning.
Middle of the Eclipse, " " 4h 5.7m "
Last contact with the shadow, " " 5h 45.9m "
Magnitude of the Eclipse, (Moon's diameter=1) 0.95.

YET even stern Midwinter has its charms;
And he who has a cheerful heart may see
Some beauty in a brown and leafless tree,
While silently it stands, with barren arms
Outspread, as 'twere, in meekness tow'rd the skies.
The man has dim and uninstructed eyes
Who never finds the hidden gems that lie
Beneath his feet wherever he may tread;
And he who bears a high and haughty head
Will pass unseen some work of wonder by.
The flowers may all have gone—the birds departed—
And babbling brooks be changed to speechless ice,—
Still nature's winter aspect may suffice
To fill with tender thought the pure and earnest-hearted.

FODDER.—Cut up coarse fodder, wet it, salt it, sprinkle enough oil-meal or ship-stuff on to give it flavor, and let it stand, stirring occasionally till well soaked and mixed. All kinds of stock will eat it. Use no worthless fodder except in the manure heap.

DAIRY.—Color winter butter with carrots fed to the cows.

SPRING for the youth, and Summer for the man,
And Autumn-time for him whose head is sere;
But when one meets the Winter of his year,
Then should he rest, and well and wisely scan
The tenor of his life, and lessons give
How younger men may well and wisely live.
I loathe to see the old man dabbling in
The turmoils of the world. Like one apart,
Turning aside from Mammon's work and sin,
Be his the holy task to teach the heart.
In the midway between two worlds he stands:
His foot is lifted; when he steps again,
He passes from the dwelling-place of men,
And a new stage of life begins in other lands.

TOOLS if not greased will be likely to rust; attend to this, and to any repairs they may need. Make up a lot of rake teeth, and hay caps, and other things which you will need next Spring or Summer.

CELLARS.—Air well on warm, moist days. Keep clean and watch the appearance of fresh rat holes, all of which close with broken bottles and cement mortar.

MAPLE SUGAR.—Prepare to make all possible, and be ready for the first run of sap—this is the sweetest.

"MAY I come up?" the hidden germ inquires;
"All winter long, the fearful frost has bound
Above my head a mass of icy ground.
I've slept in silence, till the solar fires
Have driven away the frost; the soften'd earth
Invites me now to claim the right of birth.
Oh may I come, and see day's sunny smile?"
"Not yet, not yet. 'Tis safe for thee to bide a little while
Within thy cell: ere long shalt thou arise,
And God thy life will keep." When happier hours
In brightness come, with warm and genial skies,
The germ springs up, and bears a crown of buds and flowers.

Separate cows near calving from the others, giving them wide roomy stalls or boxes. Keep watch to render assistance if necessary.—Working oxen must be well fed and not allowed to overwork.

CLOVER.—May be sowed at any time during the month—best when the ground is frost cracked on a still morning, or else upon new fallen snow, as the seed may then be seen and it can be more easily sowed.

HIRED MEN.—Lose no time in hiring *good* men for the Summer's work. Don't have a shiftless, lazy, or unprincipled man on the farm at any price.

EAT not the bread of idleness.

THE wind still blows from the north-eastern quarter,
All charged with chills and coughs and sniffling sneezes!
Let poets sing of April's balmy breezes,
'Tis my belief that spring's a wayward daughter,
O'erfond of dabbling every day in water;
Or she is Nature's washerwoman, plashing
The earth's old clothing—suds around her dashing!
At all events, I wish her reign were shorter.
The weathercock awhile turns to the north,
The long-imprison'd sun comes weeping forth,
His eyelids fringed with diamond drops; when, lo!
The wind returns to its accustom'd place,
And blows the clouds directly in his face,
And spills their watering-pots on hapless man below!

SHEEP.—Breeding ewes must be kept separate from the rest of the flock; go through and "tag" the whole flock, removing all the filth adhering to the fleece; the wool saved will more than repay trouble. Provide shelter from rains.

SWINE—Feed breeding sows succulent food, raw roots or cabbages in moderate quantities, and provide clean pens and abundant litter.

THE maiden-hearted May has come. The weeping
And smiling skies alternate o'er us reign;
The grass is springing verdant on the plain,
And little germs that long time have been sleeping
Beneath the sod are timidly up-peeping;
Sweet buds and blossoms thick are putting forth,
As if in confidence of Heaven's sure keeping,
And fearless of the threatenings of the north.
The flowers will soon be here, and bees have come;
The notes of spring and summer birdies ring,
And winds, and brooks, and trees in concert sing,
And make the human soul leap up in gladness,—
Save the sad hearts who, in their des'late home,
Do weep the loved and lost, though not in hopeless sadness.

1	6	4 51	7 3	14 12	11 56 59	15 4	3 1	3 25	♎	CATTLE.—It is important that cattle have some succulent food as warm weather approaches—rutabagas, mangels, sugar beets, carrots or cabbages—work cattle & cows both need it. A good currying or carding every day or two should not be neglected. Feed corn meal to both milch cows and oxen. This is the most profitable time of the year and they should lack nothing conducive to their health & comfort. Milk young cows *three* times a day, it increases the tendency to secrete milk and makes them better milkers in the end. Allowing any cow to go with a full dripping bag does not increase its capacity, but diminishes the quantity of milk secreted. Regularity in the time of milking is necessary.

CALVES.—When milk is worth 2 1-2 cents per quart it is cheaper to bring up calves upon gruel and skim milk than to let them suck the cow. Give, at two or three days old, new milk warm from the cow, then gradually add a portion of skim milk, and gruel of shorts, rye, oat or barley meal scalded and well soaked.

FENCES—Keep all in repair, particularly boundary and road fences, and around pasture lots where young cattle are confined.—Good fences make quiet cattle. If they once become unruly, no ordinary fence will restrain them.

THE gentle Spring came knocking at the door;
And surly Winter gruffly bade her wait:
Her timorous foot she placed upon the floor,
But winter growl'd and show'd his wrinkled pate,
And she, affrighted, swiftly fled away.
The southern winds invited her to stay,
And she return'd and softly knock'd again,
And nature smiled and beckon'd her to enter.
Now round her pathway flowering beauties centre.
And pleasure overfills the hearts of men.
The Spring arrives at Summerhood in June,
When flowers are young and beautiful and bright,
And brooks and birds emit their sweetest tune,
And longest is the day and balmiest is the night.

If the blue skies serenely shone for aye,
And clouds wept not, but like the fleecy feather
Sail'd lightly on the air,—and night and day
Evinced the same stability of weather,—
How soon were earth enrobed in mourning weeds!
The springs would fail,—the rivulets run dry,—
The panting herds would seek the river reeds,
And every weak and tender thing would die.
Nor rain nor dew the corn and fruit to feed,
Deep desolation tyrant-like would reign;
His breath to dust would turn the wither'd plain;
And man, the heir of misery indeed,
Might lift his hand, and to his Maker pray;
And words of agony his quivering lips would say.

HOEING.—Let no weeds grow among the corn, and substitute the horse for the man, as much as is possible, in destroying weeds.—Keep the hoe and cultivator very near the surface, lest the corn roots receive damage.

AN aimless man is likely to remain a nameless man.

'Twas August noon. I sat me down upon
A fallen tree, beside a little rill
That ran along the bottom of the hill
And sang upon its way. The summer sun
Beam'd hotly down; but 'neath the shadowing trees
My bosom felt the coolness of the breeze.
A buzz and silence seem'd by turns to reign;
The squirrels nimbly pranced along the fence,—
I harm'd them not, nor feign'd to scare them thence—
(For who could put such merry things to pain?)
Upon the ground came lightly down a bird—
A frog was gravely sitting by the rill—
But far from me was thought or wish to kill:
And quietly I sat and saw, and quietly I heard.

WINTER GRAIN.—Prepare grounds, to be sown late this, or early next month. It will succeed on sod ground, but preference is generally given to cultivate it after fallow, oats, or an early hoed crop.

INSURANCE.—Good insurance companies and lightning rods have saved many a man from sudden destitution. It is usually advisable to invest a percentage judiciously in this direction.

I BEAR a special love to sweet September:
Though people say partialities are wrong,
From youthful Janu'ry to old December
No month I love with love so true and strong.
The year hath got its richest ripeness then,
Like womanhood when in its perfect prime
And comeliness, before the hand of Time
Hath lined the temple with his telltale pen.
September's lap is full, and plenty reigns
To recompense the toiler for his pains
And feed the poor. A pleasant look hath she—
Such as the children love to see upon
Their mother's face when they her smile have won:
Let others choose their love—September pleases me.

UNDER-DRAINING and ditching may be attended to this month; farm roads repaired and crowned; fences and out-buildings should be put in good repair before the equinoxial gales set in; cisterns should also be dug, while the ground is soft, as the spring is too busy a time for such work.

FORTUNE'S wings are made of time's feathers, which stay not whilst one may measure them.

THE prudish maid, October, 's coming down
From her sojourning in the frigid north:
Of her approach the signs are putting forth:
I hear the rustling of her russet gown;
Her voice rings shrilly on the frosty air,
The forest leaves are blushing red and brown,
And Nature wears a dark, forbidding frown,
Intensely vex'd that she's no longer fair.
October comes! her nose is sharp and blue,
Her temper changeable—at morning cold,
At noon she apes a smile, then, like a shrew,
At night she's lowering, turbulent and bold.
Ah! how unlike the pregnant months, that pour
In our rejoicing bosoms their abundant store!

satisfactorily proved, that one pound of cooked corn will make more pork than two pounds fed in the raw state. Hogs should be fattened in small pens, as exercise of any kind wastes carbon, and materially interferes with fat-making.

WINTER fruits should be placed in a dark place, with dry even temperature at about 60° to 65°. Where the object is to retard ripening, the temperature should be reduced accordingly.

IN large assemblies of men there is more feeling and less thought than in small ones.

THE ice has come! The cold-lipp'd Frost has kiss'd
The waters while they slept at night; his breath
Has fixed them in a torpor as of death.
Nor shrub nor flower the midnight ranger miss'd,
But on them all he laid his fatal fingers.
He touch'd the trees; and when the sun comes forth
And warms the leaves, they fall in sudden showers;
The change from frost to sunny heat o'erpowers
The feeble health that in them faintly lingers.
The blast is keen this morning from the north;
All tender things are dying day by day;
Soon, soon will they be gone, and seen no more,
And we shall stand on nature's wintry shore,
The gentle dreams of summer having pass'd away.

and be careful to remove all the "silk" before putting it in the crib. Tie corn stalks in small bundles; when well cured they are nearly equal to good English hay, as fodder.

WOOD.—Cut and pile ready to draw when snow falls. Select dying and unthrifty trees, and thin out undergrowth.

DON'T dispute against facts well established, merely because there is somewhat mysterious in them. That the world should be created of nothing is to us inconceivable; but not therefore to be doubted.

WINTER reclines his head upon the lap
Of Autumn; and his snowy locks he flings
Upon her bosom. Closely doth he wrap
His arms around her, till her quiverings
Subside in death. His voice breaks forth in wild
And piteous howls, as if he mourn'd the death
Of the meek one who perish'd at his breath.
Stern on his brow the angry clouds are piled,
And bitter are his rage and vengeful spite;
And seamen on the rocky coast at night
Fall victims to his ire. At times he seems
To put away his wrath, and melting tears
Run down his icy cheeks in copious streams;
But soon anew they freeze, and all his rage appears.

1	3	7 16	4 23	9 7	11 49 13	21 49	10 47	10 26	♌	THE comparative leisure of Winter affords valuable time for learning the *science* of Agriculture.—Mere book knowledge will never make a good farmer, neither will mere working on a farm; knowledge & practice must go together to secure the best results. The study of agricultural works will not only add to the stock of practical ideas, but will develop and cultivate the man himself. We urge that all the animals upon the farm be well cared for during this inclement season, but are yet more solicitous that the cultivator does not neglect himself. Mind-power is superior to horse-power, or steam power on the farm or elsewhere.

WE bow to the man who kneels.

COMMENCE feeding roots; at first sparingly. They should be sliced or pulped before being given to the animals. Carrots may now be fed to horses—two quarts of carrots and two quarts of oats, are better for a horse than four quarts of the latter.

ACCOUNTS.—Settle with all debtors and creditors. At least let accounts be made up, and a balance be agreed upon, if debts cannot be canceled.

ALCOHOL destroys a live man, but preserves a dead one.

FAMILY DYE COLORS,

—FOR—

Dyeing Silk, Woolen and Cotton Goods, Shawls, Scarfs, Dresses, Ribbons, Gloves, Bonnets, Hats, Feathers, Kid Gloves, Children's Clothing, and all kinds of Wearing Apparel,

WITH PERFECT FAST COLORS.

LIST OF COLORS.—Black, Dark Brown, Snuff Brown, Light Brown, Dark Blue, Light Blue, Dark Green, Light Green, Pink, Purple, Slate, Crimson, Salmon, Scarlet, Dark Drab, Light Drab, Yellow, Light Yellow, Orange, Magenta, Solferino, French Blue, Royal Purple, Violet.

These Dye Colors are expressly for family use, having been perfected, at great expense, after many years of study and experiment. The goods are ready to wear in from one to three hours' time. The process is simple, and any one can use the dyes with perfect success.

GREAT ECONOMY!

☞ A SAVING OF EIGHTY PER CENT. ☜

In every family there will be found more or less of wearing apparel which could be dyed, and made to look as well as new. Many articles that become a little worn, soiled, or out of style, are thrown aside. By using these Dyes, they can be changed to any color or shade in a very short time, at a small expense. You can have a number of shades from the same dye, from the lightest shade to the full color, by following the directions on the inside of package.

At every store where these Dyes are sold, can be seen samples of each color, on silk and wool.

All who have used these Family Dye Colors pronounce them to be a most useful, economical and perfect article.

Numerous testimonials could be given from Ladies who have used these Dyes; but in this case it is not required, as its real value and usefulness are found upon one trial.

Manufactured by HOWE & STEVENS, Practical Chemists, 258 Broadway, Boston.

ALEX. B. WILBOR, Chemist,
166 Court Street, Boston.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.

☞ A cure for Consumption, Coughs, Colds, Asthma, Bronchitis, General Debility, and all Scrofulous Humors.

The proprietor has succeeded (from directions from Prof. Stone,) in combining the Oil and Lime so perfectly that the taste of the Oil, which is so nauseous to persons generally, is entirely overcome, and it can be taken by the most delicate females with pleasure — And as regards the benefit of this article over the clear Oil, the following case by Prof. Stone is sufficient to convince the most skeptical. The young lady was twenty-four years of age:

"Her case was one of unmixed phthisic, which had been expected to terminate fatally in the course of a few months. The upper part of both her lungs was filled with tubercles, and in some places were beginning to soften. The case was evidently a bad one. The treatment of Cod Liver Oil was at first used, but without marked improvement. The Phosphate of Lime was then administered with the Oil, and the result, as in the case of many others, was soon apparent. The patient was rapidly getting well."

Manufactured only by

ALEX. B. WILBOR, Chemist,

Eclipses.

In the year 1864 there will be two Eclipses, both of the Sun.

I. An Eclipse of the Sun, May 5th, invisible in Vermont. Mean time of ☌ in R. A., 7h 32m evening. The Eclipse will be visible from the Eastern part of Asia, from the North Pacific Ocean, and from the Northern and Western parts of North America. Whole duration of the general Eclipse, 5 hours and 33 minutes.

If the tabular diameters of the Sun and Moon are perfectly correct, the augmentation of the Moon's semi-diameter will render this Eclipse total except near the positions of central beginning and ending.

II. An annular Eclipse, October 30th, invisible in Vermont.—Mean time of ☌ in R. A., 10h 45m morning. This Eclipse will be visible from all of South America, from the Southern part of North America, from the South Atlantic Ocean, and from the South-western part of Africa. Whole duration of the general Eclipse, 5 hours and 58 minutes.

ing their neighbors, for it is God's command, and loving God, for God is love. I believe labor honorable, good habits respectable, and honesty indispensable. And finally I believe in minding my own business well, as the best way of setting an example to other people to mind theirs for themselves.

Begin well.—A thing well begun is well done: a good rule for beginning the year, since good resolutions, earnestly adopted, will influence the conduct for future time. Alas! however, that we usually forget them before the year is half out.

Parsnip Oysters.—To one pint of smashed parsnips add three well-beaten eggs, a table-spoonful of butter, pepper and salt to suit the taste, and add sufficient flour to hold the mixture together.—Make into little flat balls, and fry them to a nice brown in butter.

A proud person thinks everything too much that is done by him, and everything too little that is done for him. God is as far from pleasing him with his gifts as he is from pleasing God with his works.

Corn Bread.—One quart meal, one pint flour, one pint sweet milk, one pint sour milk, one tablespoonful sugar, one teaspoonful saleratus, and one teaspoonful salt. Bake two hours in a slow oven. Eat warm or cold.

Curing Hams.—For 100 pounds of meat, take 4 pounds fine salt, 2 ounces saltpetre, and 4 ounces of brown sugar; mix well together, and rub upon the fresh sides of the pieces until they are covered. The hams should be laid on boards, and the rubbing repeated daily for several weeks, or until the meat is ready for smoking.

Ink Stains.—Housewives who are horrified at the sight of ugly ink stains, will like to get hold of a receipt for removing them. The moment the ink is spilled, take a little milk and saturate the stain, soak it up with a rag and apply a little more milk, rubbing it well in. In a few minutes the ink will be completely removed.

Fault Finding.—It was my custom in my youth (says a celebrated Persian writer) to rise from my sleep to watch, pray, and read the Koran. One night, as I was thus engaged, my father, a man of practiced virtue, awoke. "Behold," said I to him, "thy other children are lost in irreligious slumbers, while I alone wake to praise God." "Son of my soul," said he, "it is better to sleep than to wake to remark the faults of thy brethren."

Students.—A late morning student is a lazy one, and will rarely make a true scholar, and he who sits up late at night, not only burns his life's candle at both ends, but puts a red hot poker in the middle of it.

HE that fears God, fears nothing else.

WHEN King James' tutor lay upon his expiring pillow, his Majesty sent to inquire how he did. "Go tell," said he, "my royal sovereign that I am going where few kings go."

THE worm of pride is always injurious to celestial plants; eithe this vice must be shut out on earth, or we shall be shut out of th kingdom of heaven.

THE bowing reed of an humble mind shall be preserved entire, while the sturdy oak of a proud and lofty mind shall be broken int shivers.

YOUR bags of gold should be ballast in your vessel to keep her always steady, instead of being topsails to your masts to make your vessel giddy.

IT is a popular delusion that powder on a lady's face has the same effect as in the barrel of a musket—assists her to go off.

SELF-RESPECT is the ballast of our life ship. Without it, let the craft be what she will, she is but a fine sea-coffin at the best.

GOOD words and good deeds are the rent we owe the air we breathe.

on the top of a stout post, so it will stand about eight feet high when the post is set in the ground; then plant the post firmly in the ground, and teach the children and fools not to disturb the little feathered folks in their cottage homes. The boxes for martins should be placed higher and more retired than for the smaller birds. On the top of a barn or carriage house, or upon a post twenty feet high, are good locations.

The martins will keep off the hawks from the chicken yard, and the blue-birds and wrens will snap up myriads of pestiferous insects that would prey upon the fruit; and all will cheer you with their grateful music, and repay your pains more than a thousand fold.

MUFFINS.—Three tablespoonsfuls of butter melted in three pints of milk; when cold stir in six eggs, one teaspoonful of salt, two tablespoonfuls of yeast, and flour to make the batter as thick as you can beat it. It will rise in three hours.

THE Supreme Majesty cannot suffer us to glory in any but Himself, therefore, when we glory in our pride, he stains the pride of our glory.

It has been observed by those who are experienced in the sport of angling, that the smallest fishes bite the fastest; so men and women of small minds are quickest to nibble at the baits of folly. It is the most foolish who are soonest hooked.

WITH a double vigilance should we watch our actions, when we reflect that good and bad ones are never childless; and that, in both cases, the offspring goes beyond the parent—every good begetting a better, every bad a worse.

SOMEBODY, who writes more truthfully than poetically, says:—"An angel without money is not thought so much of now-a-days, as a devil with a bag full of guineas."

LOVE in a cottage makes a pretty picture for a mantel-piece, but it is all the prettier when there are eatables in the cupboard.

IF every care drives a nail in our coffin, every merry laugh draws one out.

He begins as early as June 20th, taking the earliest grass on rich land. He insists that the green hay is the best for cattle, and moreover early cutting is the best for the sward, because the roots are saved from exhausting themselves in producing seed. On rich land, two crops can be secured if the first is cut early.

THE CORN GRUB.—The corn crop has several formidable enemies to contend with, and among them is the grub, which sometimes literally destroys whole fields, and frequently damages the crop seriously. One of the best and most judicious remedies, perhaps the very best ever suggested, is the application of *salt* as soon as the plant makes its appearance above ground. Take one part common salt, and three parts plaster or gypsum, and apply about a tablespoonful *around* each hill, and it will be found to be a sure protection. The mixture should not come in contact with the sprouts as it may destroy them.

HOW TO SOFTEN HARD WATER.—One-half an ounce of quick lime dissolved in nine quarts of water, and the clear solution put into a barrel of hard water. The whole will be soft as it settles clear.

ADVICE.—If your coat is comfortable, wear it two or three months longer, no matter if the gloss is off. If you have no wife, get one; if you have, God bless her, stay at home with her, instead of spending your evenings in expensive, flat fooleries. Be honest, frugal, plain; seek content and happiness at home; be industrious and persevering; and our word for it, if your circumstances are now embarrassed, they will soon become easy.

Take four yards of yard-wide cotton sheeting; sew it together so as to make two yards square; hem the rough edges; turn up each corner two or three inches, and sew it strongly; tie in a short strong twine to form a loop, and you have a hay-cap ready for use. Four sharp wooden pins of hard wood, half an inch in diameter, 18 inches long, to be thrust upwards through the loops into the hay at the bottom of the cock complete the preparation."

RULES FOR WINDOW PLANTS.—*Watering.* Practice tells the eye whether or not required. The color of the plant shows it. Better still, knock at the pot. If it sounds hollow, water; if it gives a muffled sound, don't. Watering, when not required, sours the earth, and the fibres of the root will rot. To correct sourness pour hot water—40° or 50° Reamur—if that won't do, re-pot. Worse than too often watering is too seldom watering. Once neglected, water little and often till normal health is restored.

SCOTCH CAKE.—One pound of sugar, three-quarters of a pound of butter, one pound of flour, nine eggs, one wine-glass of brandy, (spices if preferred,) and raisins.—*Genesee Farmer.*

THE first Adam was for self-advancement; but the second Adam is for self-abasement; the former was for having self deified; the latter is for having self crucified.

IN the highest heavens the beams of majesty are displayed, but to the lowest hearts the bowels of mercy are discovered.

No man is free who has not the command over himself, but suffers his passions to control him.—*Pythagoras.*

O MAN, either appear what you are, or be what you appear.

GOD abhors them most who adore themselves most.

TO CURE SCOURS IN CALVES.—Take a piece of rennet, and soak as our cheese-making farmer's wives would prepare for cheese, and give, say six table-spoonfuls before the calf is fed. One dose I have generally found sufficient. The same remedy administered in larger doses, will cure the same disease in older cattle.

WHAT IS VIRTUE?—A student put this question to the late Dr. Archibald Alexander. His simple and admirable reply was, "Virture consists in doing our duty, in the several relations that we sustain, in respect to ourselves, to our fellow-men, and to God, as known from reason, conscience and revelation."

SWEET APPLE PUDDING.—One pint of scalded milk, half a pint of corn-meal, one teacup of molasses, one teaspoonful of salt, six sweet apples cut in small slices. Bake three hours.

THE law is a pretty bird, and has charming wings. 'Twould be quite a bird of paradise, if it didn't carry such a terrible bill.

REMEMBER, Christian, if you be poor in the world, you should be rich in faith; and if you be rich in this world, you should be poor in spirit.

proportion of the latter should be small, because it gives a disagreeable odor. All good tallow is white, firm and brittle, and dipped candles can only be made of it in mild weather. Be careful to use nothing but fine, white, clean cotton yarn for wicking.

REMEDY AGAINST MOTHS.—An ounce of gum camphor, and one of the powdered shell of red pepper are macerated in eight ounces of strong alcohol for several days, then strained. With this tincture the furs or cloths are sprinkled over, and rolled up in sheets. Instead of the pepper, bitter apple may be used. This remedy is used in Russia under the name of the Chinese Tincture for Moths.

INFIDELITY is the worst of robbers; it both plunders and wounds the soul. Christ may dwell in the heart where it lurks, but not where it reigns. If Christ destroy its armor it becomes weak as other men. Its chief strength, wherein it trusteth, is ignorance, and no wonder why men sigh so little for sin, when they see so little of sin. They have tears enough for their outward losses, but none for their inward lusts they can mourn for the evil which sin brings, but not for the sin which brings the evil.

THE sun of prosperity shines the clearest in the sphere of humility.

SEASONABLE HINTS.

SAVE fruit for the soldiers: — tomatoes boiled down one-half and put up in air-tight bottles or cans, and apples pared, cored, and quartered or sliced, and thoroughly & cleanly dried. The best dried apples we have ever tasted were sliced, and carefully dried so as to be free from dust.

OCTOBER is a good month for making asparagus beds. Dig deep, manure liberally at the bottom, and set roots that are at least two years old.

HOW TO HARVEST CARROTS. — Send a man with a sharp hoe through the rows, to cut off the tops. Then, beginning on one side of the patch with a plow, cut a deep furrow close to the first row of carrots; a second furrow will completely unearth them. Two boys with baskets will soon fill a wagon. When the crop is harvested, the land will be already fall-plowed.

GREEN TOMATO PICKLE (SWEET).—Gather full-grown green tomatoes, scald and peel them. Make a strong ginger tea, into which drop your fruit and scald well. For every two pounds of tomatoes, take a pound of sugar and a pint of good vinegar, and make a syrup of this, and drop in the fruit. Let them cook until perfectly clear. Add cinnamon, mace, and white ginger. Cover well with syrup, and tie up closely.

"BLESSED are they that mourn, for they shall comforted." Out of the saltest water God can brew the sweetest liquor. The skillful bee gathers the best honey from the bitterest herbs. When a cloud has been dissolved into a shower, there presently follows a glorious sunshine. The more a stone is wounded by the hand of the engraver, the greater beauty is superinduced thereon. By groans unutterable the Lord ushers in joy unspeakable.

WHERE humility is the corner-stone, there glory shall be the top-stone.

THE more prosperity man enjoys, the more humility God enjoins.

spoonful soda, and 2 of cream of tartar, with salt to taste. Use butter the size of an egg, and water only to mix of proper consistence.

VINEGAR RECIPE.—A correspondent of the Scientific American says: "To one gallon of soft water, add a pint of sugar or sorghum molasses, stir all well, and then add nearly a gallon of tomatoes, fresh and ripe. Then set the vessel aside, and in a few days you will have the sourest pickles I ever tasted, and nearly the best vinegar."

GIVE me the homely vessel of humility, which God shall preserve and fill with the wine of his grace, rather than the varnished cup of pride, which He will dash in pieces like a potter's vessel.

THAT was an excellent saying of one: "Where a gracious person would sit below me, I will acknowledge his dignity; but where a proud person would move above me, I would abhor his vanity."

As the sugar loaf is dissolved and weeps itself away when dipped in wine, so do our hearts melt under a sense of divine love. Our language at such a season is: Oh, that we should be such base children to so blessed a Father.

WHERE is a pure conscience, there will be a pure conversation.

Murmur under moon and stars,
In brambly wildernesses;
I linger by my shingly bars,
I loiter round my cresses.

And out again I curve and flow,
To join the brimming river;
For men may come and men may go,
But I go on forever.

MUCK, direct from pit, is a good top-dressing for grass. Applied in the fall, and dissolved by frost of winter and the snow and rain of spring, it feeds the roots directly with "fresh feed." A Jerseyman says it pays better than any investment which he has made.

HOW TO MAKE AN OMELET.—One egg, two tablespoonful of milk, one teaspoonful flour, salt to flavor. Beat thoroughly together. Butter your frying-pan well. Fry batter till the under side is lightly brown, and the whole as consistent as baked custard—then, with knife underneath roll it.

COOKIES THAT WILL KEEP TWO MONTHS.—One pint sour cream, one pint white sugar, butter the size of an egg, one teaspoonful of soda, two tablespoonfuls of caraway seed.

A GREAT THING.—A loving heart and a pleasant countenance are commodities which a man should never fail to take home with him. They will best season his food and soften his pillow. It were a great thing for a man that his wife and children could truly say of him, "He never brought a frown or unhappiness across his threshold."

A SAINT'S tears are better than a sinner's triumphs. Bernard saith: "The tears of penitents are the wine of angels."

THOUGH there may be something left by self-denial, yet there can be nothing lost by self-denial; nay a man can never enjoy himself till he be brought to deny himself.

INWARD diseases are least visible, and yet most fatal. A man may die of the plague, although the spots never appear.

TRUE nobility of the mind consists in humbleness of the mind.

A COUGH, COLD,

—OR AN—

Irritated Throat,

if allowed to progress, results in serious Pulmonary and Bronchial affections, oftentimes incurable.

BROWN'S BRONCHIAL TROCHES

reach *directly* the affected parts and give almost instant relief. In BRONCHITIS, ASTHMA, and CATARRH they are beneficial. The good effects resulting from the use of the Troches, and their extended use, has caused them to be counterfeited. Be sure to guard against worthless imitations. OBTAIN only the *genuine Brown's Bronchial Troches*, which have *proved* their efficacy by a test of many years. PUBLIC SPEAKERS and SINGERS should use the Troches. They are invaluable for allaying the hoarseness and irritation incident to vocal exertion, clearing and strengthening the voice. Military Officers and Soldiers, who overtax the voice and are exposed to sudden changes, should have them.

From the Medical Director of the General Hospital, Benton Barracks, near St. Louis, March 8, 1862.

Messrs. JOHN I. BROWN & SON, BOSTON, Mass. "Use of your far-famed and most serviceable "*Troches*" is being made in the hospital of which I have charge, and with very beneficial and decided results in allaying bronchial irritation and morbid sensitiveness of mucous membrane of glottis and parts adjacent."

From R. B. HEINTZELMAN, *Steward 72d Reg. P. V.* "Your medical preparation (Brown's Bronchial Troches) is certainly valuable to soldiers in the field, and I feel satisfied, if generally adopted at the hospitals, many sleepless nights of the weary soldier would be averted. Our regiment are now testing their qualities, and I believe are all satisfied of their good effects in alleviating those distressing affections of the throat arising from cold and exposure. They are now daily prescribed in our hospital and at the surgeon's morning call."

Sold everywhere at 25 cents a box.

This remarkable remedy is as highly appreciated and as much sought after now as on its first introduction many years since. The same results follow its use now as formerly; and so long as it maintains its supremacy, and commends itself to the world as the best remedial agent—the most rapid in its operation—the most safe, certain, speedy and permanent in its results, so long will it be prized as the remedy *incomparable!*

BE WISE TO-DAY! *NEGLECT NOT A COUGH. Defer not the use of a Timely Remedy within the reach of all.* ☞For sale by S. W. FOWLE & CO., 18 Tremont St. BOSTON, and by all Druggists.

IMPORTANT TO ALL INVALIDS!

It is well known to all Medical Men that IRON is the *vital principle* or *life element* of the Blood. But it is only since the discovery of the PERUVIAN SYRUP that the great power of this *vitalizing agent* over disease, has been brought to light.

THE PERUVIAN SYRUP

is a *protected* solution of *Protoxide of iron*, a NEW DISCOVERY in medicine, that *strikes at the root of disease*, by supplying the blood with its *vital principle*, or *life element*, *IRON*.

This is the secret of the wonderful success of this remedy in curing *all diseases arising from disordered digestion, weakness, and a bad state of the blood.*

TRUSSES, ELASTIC HOSE, &C.

Besides a complete assortment of articles intended for the exclusive use of the

Medical and Dental Professions,

we have always in store, at lowest prices, a great variety of the following articles suited to the wants of the general public.

TRUSSES.

Every desirable style of most popular patterns. Particular attention, however, being directed to the merits of a

NEW SPRING LEVER TRUSS,

which has been proved by the experience of many wearers, during two years past, to be the *best Truss* yet invented—affording, as it does, a circular inward and upward lifting action, while worn with such comfort that the wearer, after short experience, is almost unconscious of its presence. A pamphlet descriptive of this Truss will be sent to the address of any person enclosing two blue stamps.

ELASTIC HOSE,

for Varicose Veins, Swollen and Weak Joints. Of these goods we have several grades of Silk and Cotton, at corresponding prices. The sizes are full length, three-quarters, half or knee Hose, Leggins, Knee Caps, and Anklets. Directions for measurements for Hose forwarded when requested.

Also, Elastic and ordinary style Abdominal Supporters, Shoulder Braces, &c. Syringes of every description, Galvanic Batteries, Hearing Trumpets, Auricles, and Conversational Tubes for the Deaf.

A complete Priced Catalogue of Dental and Surgical Instruments will be sent to those desiring it.

BOSTON, Sept. 23, 1862.

DOCT. FOWLE.

Dear Sir,—For upwards of five years I have suffered terribly with the Bleeding Piles. Sometimes they would bleed four or five days without cessation, even the blood would run down into my shoes, and I would be obliged to keep my bed a week at a time. I have spent over $500 for various medicines, but obtained no relief. I was induced by a friend, who was cured by the use of one bottle of your Remedy, to try it. I bought a bottle, and in less than two weeks was wholly, and I think permanently cured, for it is now over two months since I left off taking it, and I have had no return of them since, and I never enjoyed so good health as at the present time, as this Remedy has invigorated my whole system.

Please publish the above. By so doing you will confer a favor on all those who are afflicted with that most terrific disease, the Piles.

Yours truly, H. M. B. MITCHELL,
No. 7 Nashua Street.

CHARLESTON, Mass., Oct. 25, 1860.

MR. FOWLE.

Dear Sir,—This is to certify that I have suffered from childhood with the Salt Rheum, and have tried many remedies, but to no effect, until after using yours, which brought immediate relief, and I can truly say that to its use I owe my life. To show my condition I will state that I was often so lame in my feet, on account of the humor, as to be unable to walk, and my finger nails turned black and came off, with many other serious afflictions which are well known to those subject to this terrible disease. At the present time (over six months since I have done using it) I have not the least trace of it remaining, my skin is smooth and my nails have grown out, and are of the natural form and color. Please accept this with many thanks. From your humble servant,
MISS L. K. WATSON.

BOSTON, Nov. 15, 1862.

DOCT. H. D. FOWLE.

Dear Sir,—I had a terrible Humor, (Salt Rheum,) on my face and arms for a long time, so bad that I had no rest by day or night, with loss of appetite, and very sick on account of the Humor. My face was covered with large scabs which scaled off, and presented a horrid sight to look at. I used one bottle of your Remedy, and in three weeks was entirely cured, not even a scar or pimple to be seen; my appetite has returned, and I never enjoyed so good health as at the present time. Please to give this as much publicity as you can, as I think it saved my life, as physicians had pronounced me incurable. Your humble Servant,
ANN MORSE, 18 Chester Park.

Numerous other certificates are omitted.

Hunnewell's Great Remedies.

THE TRUE FORM OF A CATHARTIC.—By the application of true Medical Laws, both character and economy are combined in this most valuable Pill. To prevent putting into the stomach such quantities of indigestible and injurious drugs usually contained in Pills that require from four to six to get a decent cathartic, and to prevent the *Griping Pains* so erroneously judged to be evidence of character, was the study in this development. The dose seldom exceeding *one*, and never more than *two* Pills, settles the question of economy, and confidence is asked to test their true character in *Dyspepsia, Costiveness, Biliousness, Liver Complaints, Piles*, all derangements of the *Stomach* and Bowels, and as a true Family Pill. For *Worms* they are a sure cure.

The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which *Throat* and *Lung Complaints* can be effectually cured.

To prevent asking attention to long stories of great cures, when local causes make almost all such complaints different in effect, I would ask confidence, which will be sacred, in *Colds, Coughs, Hoarseness, Sore Throat, Bronchial* and *Asthmatic Complaints, Whooping Cough*, and to all *Throat* and *Lung Complaints*, which, when neglected, end in *Consumption*. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

This justly celebrated preparation, which has so truly earned the name and fame of a *True Anodyne* by results which had baffled every other attempt at cure or relief in *Neuralgia, Rheumatism, Gout, Nervous Headache, Tooth* and *Ear Ache, Cholera Morbus, Pains in the Stomach or Bowels*, Hysteria, Distress after Eating, Loss of Sleep, General Nervous Debility, Paroxysms in Asthma and Whooping Cough, now declared to be largely nervous, and for the Pains in *Monthly Menstruation*, also declared to be one of the most important points in medicine. A lady writes from New York, "were it *ten dollars a drop*, I would not be without it in my family, and no one should be without it."

Reed, Cutler & Co., of this city, is, we have good authority for stating, one of the best remedies for Coughs, Colds, and all Pulmonary complaints, ever offered to the public. It has stood the best of all tests—time—and has sustained its reputation for more than forty years. Physicians of the highest respectabilty prescribe it, and thousands of families keep it on hand as a standard family medicine. The proprietors have in their possession written testimonials of its efficacy sufficient to convince any who may be affiicted with the prevailing pulmonary complaints incident to this climate.—*Boston Journal.*

VEGETABLE PULMONARY BALSAM, for Coughs, Colds, and Consumption. We intended long before this to have called the attention of our readers to this valuable medicine, prepared by those reliable and gentlemanly druggists, Messrs. Reed, Cutler & Co., of Boston. We have been knowing to its efficacy in curing inveterate coughs and colds in families of our acquaintance, and feel fully warranted in recommending it as one of the best and safest of medicines; but as there are many counterfeits, the purchaser should always couple the name of Messrs. Reed, Cutler & Co., with his inquiry for the article.—*Green Mountain (Vt.) Freeman.*

BLACK
WRITING INK.

Testimony of Parties who have used it for more than a Quarter of a Century.

REGISTRY OF DEEDS OFFICE,
Boston, Jan. 10, 1859.

MESSRS. MAYNARD & NOYES—*Gentlemen:* I am glad that longer use of your Writing Ink enables me to repeat the testimony given in its favor many years ago. I have used it in this office thirty-seven years, and my oldest records are as legible and black as when first written. This rare quality for permanence renders it invaluable for State and County Records and all mercantile purposes, where it important that the writing should remain legible and unchanged in color by the lapse of time.

HENRY ALLINE, *Register of Deeds.*

The following extract from a letter of a well known and long established Bookseller in Dover, N. H., is like many others the Proprietors are constantly receiving:

"After trying various kinds of Ink, most of my customers come back to yours. I am tired of the miserable compounds offered every little while, pretending to be superior to all other inks, and will have nothing further to do with them. I have used your Ink on my books over twenty-six years, and my customers can see how it stands against time. Entries made in 1832 are as fresh as those made during this year."

Eclipses.

In the year 1865 there will be two Eclipses of the Sun and two of the Moon.

I. A partial Eclipse of the Moon, April 10th, visible in Vermont, as follows:—First contact with the shadow, April 10th, 10h 55m evening. Middle of the Eclipse, April 10th, 11h 48m evening. Last contact with the shadow, April 11, 0h 40m morning. Magnitude of the Eclipse (Moon's diameter—1) 0, 19.

II. A total eclipse of the Sun, April 25th, invisible in Vermont. ♂ in R. A., April 25th, 9h 6m morning. The Eclipse will be visible from the southern parts of South America and Africa, and from the South Atlantic and Southern Oceans.

III. A partial Eclipse of the Moon, October 4th, partly visible in Vermont, as follows:—Moon rises eclipsed, October 4th, 5h 26m evening. Middle of the Eclipse, October 4th, 6h 0m evening. Last contact with the shadow, October 4th, 6h 50m evening. Magnitude of the Eclipse (Moon's diameter—1) 0, 34.

IV. An annular Eclipse of the Sun, October 19th, visible in Vermont, as follows:—Beginning of the Eclipse, October 19th, 9h 11m morning. Greatest obscuration, October 19th, 10h 34m morning.—End of the Eclipse, October 19th, 11h 58m morning.

Two worlds there are. To one our eyes we strain,
Whose magic joys we shall not see again.
Bright haze of morning veils its glimmering shore;
Ah! truly breathed we there intoxicating air!
Glad were our hearts in that sweet realm of nevermore.

Very little can we do to realize for them the wish; very little can any body else do: so it is for them, each and all, to "work out their own salvation," spiritual and temporal, by fidelity in every field of service. God helps those who help themselves.

It should be a point of pride to read *your* newspaper, not another man's; and it is economical to pay subscription and postage in advance.

A late number of the Journal of Agriculture contains a statement of the result of an experiment made to determine the relative value of manure made under cover, and that exposed in the barnyard. Both manures were applied to potatoes in equal quantities. The yield on equal portions of land was as follows:—Manure from barnyard, 252 bushels per acre; manure made under cover, 297 bushels per acre.

Feed well and give warm shelter, especially to cows in calf. Dry off before the new milk springs. Occasionally clean the skin and coat with card and brush.

Horses in use should be well shod and sharp. Be very careful if mares in foal are allowed to leave the stable in slippery weather.—Many a fine mare has been spoiled by slipping down.

Alas! too soon have fled the irreclaimable dead;
We see them—visions strange—amid the nevermore.

to see that cellars are properly drained and divided, that suitable paths are made to pass upon from one building to another, or from the house to the highway,—that fields and highways are properly subdivided, that *fences* are economically constructed, and that *wood* and *water* are plentiful and convenient wherever they are required. So with regard to the rotation of crops, the preparation and application of manures, the selection of proper vehicles and implements, drainage, the best breeds of stock, and, indeed, the whole economy of the farm.

ANIMALS.—All the animals of the farm should be glad to see their owner, and in fact every other person who has to do with them.—*Man* should be recognized as their best friend. Colts and steers particularly, should be petted and handled constantly. Treated thus, they will never need *breaking*. If there be a stable boy who plays with the horses by pinching or pretending to pinch their flanks, keeping himself out of the way of kicks and bites no wonder they become vicious. The same boy in passing through the cattle yard will crack the cattle over the back with a fork handle if they are caught standing in the driest parts of the yard when he wants to pass. The result is always the same—a yard of wild cows and ugly steers to be afterward "broken" by fear and a goad.

1	4	6 37	5 48	11 12	0 12 30	7 23	12 30	10 56	♍	POLITICAL duties are among the first for this month. Town legislation comes home to every citizen, and to every member of the family. Let every man give his attention to it, that good men and good measures may be adopted. A New Yorker once said that a man is a great deal bigger in little Vermont than in big New York, because in Vermont he is equal in town meeting to any body, while in New York there are no town meetings.—There is much truth in this. Town meetings are legislative schools, fitting men by experience for higher stations, more important services, and larger influence in public affairs.

everything so far as possible against damage by the gales. The great doors, whichever way they may swing, should be as sure to fasten, open, or shut, as window blinds.

CATTLE.—Working oxen need to be in good flesh, or spring work will pull hard upon them. Cows coming in should be kept in wide stalls or loose boxes, well littered, fed some roots if possible, and closely watched and perhaps assisted at calving. Vermin are apt to appear at this season, especially on young cattle. Use the card and brush freely, and apply unguentum mixed with four or five times its bulk of lard, behind the horns and down the spine—a sure cure.

GAPES IN CHICKENS.—A writer in the Rural New Yorker says that he has found by accident, that dough raised with milk rising is a sure and safe remedy for gapes in chickens, fed while fermenting, but while still sweet. He has tried it for six years, but says that where he seasons the feed of his chickens with salt, as for cooking, they never have the gapes.

It is perpetual Summer there. But here,
Sadly we remember rivers clear,
The harebells quivering on the meadow floor;
For brighter bells and bluer, for tender hearts and truer
People that happy land—the realm of nevermore.

LOSE no time in finishing such buildings as will be needed for shelter or storing produce. Clean out all rubbish from barns, stables, and sheds, and add all suitable materials to the compost heaps. Whitewash cattle stalls, poultry houses and roosts, and the insides of other outbuildings. Keep all in repair. A good coat of paint where needed will more than repay its cost in preserving woodwork. It is better applied now than later in the season. Trellises for training vines to buildings are preferable to fastening the plants directly upon the boards.

CALVES.—Raise enough of the *best* to keep the farm fully stocked. Teach them to drink when one or two days old. After the first week their food *may* be gradually changed from new to skim milk, and a few weeks later to gruel of shorts, rye, oat or barley meal. A little wheat flour boiled in milk will relieve the scours. Keep their pens dry and clean.

CATTLE, both young and old, need an extra relish of roots, if at hand, or grain, to keep them in condition as Spring advances. Keep them out of the soft meadows.

year. A good gardener always looks ahead. Have a dumping place, convenient of access, and out of sight if possible, where refuse animal and vegetable matter of all kinds can be deposited. If weeds are hoed, as they should be before they make seeds, they can be turned to good account here. Begin a heap now. There will be the litter from beds, the spoiled cabbages, potatoes and roots which have not kept well, and a great variety of other matter to be added at once.

THE PROSPECTIVE DEMAND FOR HORSES.—Hundreds of thousands of horses are used up and killed in the operations of war. The high and rising prices are a temptation to sell, but we counsel all farmers who can do so, not to sell their young mares, but breed from them, if they are fit for it.

IT is said that watering strawberries with water in which *nitrate of soda* has been dissolved, to the amount of one ounce of soda to a gallon of water, will help the plants to produce a wonderful crop.

MANY men and women have sad occasion to know that two do not necessarily make a pair.

1	5	4 19	7 37	15 48	11 57 32	22 7	2 28	0 15	♍	BUTTER.—June butter is commonly the best of the year. The grass is fresh and sweet; the weather is not so hot that butter making is interfered with, and the flow of milk is larger than at any other period, so that butter may ordinarily be made in larger quantities, and better.—Milk should not be ditsturbed at all after it is set, until it is skimmed. It should be kept at a temperture not lower than 55° F., and not higher than 60°. Though, without a cool, spring dairy room, this is seldom practicable.—The cream ought to be kept as cool as possible and thoroughly stirred every time any new cream is added. Scrupulous cleanliness, the use of tin or earthen pans scalded daily and most thoroughly, good ventilation and perfect freedom of the air from any odors of cooking, putrefaction, or any thing else, but clover blossoms, or new mown hay, churning at the lowest natural temperature, never touching the butter with the hands, working out the buttermilk very thoroughly, and salting moderately, will secure butter of an excellent quality, which if well packed will keep the year round. Scald new firkins or tubs with buttermilk, and subsequently with strong brine.

CHEESE.—Use all means to improve the quality; visit some of the associated cheese dairies.

CATTLE.—Do not over work oxen, but feed bran or shorts if much labor is required of them. Provide shelter for beef animals at pasture, especially during storms, and give at such times extra food, if it be not given regularly. Calves fattening for market may either run with the cow, or being at grass, get two or three feeds daily of skimmed milk thickened with a little bran, oil meal, oat and corn meal, etc., in judicious mixture. Take good care of calves and young stock, and keep well fed and growing.

1	7	4 20	7 48	15 28	0 3 31	23 6	3 31	mor	♎	GRASS AND CLOVER SEED.—Save enough of the best growth, when it is free from weeds, for a full supply. Pull out all foreign plants, and harvest before sufficiently ripe to lose by shelling out. There is great room for improvement in grass, by selection of the earliest and best seed each successive year. HAY.—Cut when it contains the most nourishment. Secure all under cover when practicable. If stacks must be made, keep them from the ground by laying upon timber and rails, and erect temporary movable roofs, or thatch with straw. Better stack grain than hay, if there be sheds for only one. MEADOWS too closely cut often receive much damage by exposure of the roots to the burning sun, especially upon light soil.—A liberal top-dressing of fine barn yard manure will prevent this, and stimulate the new growth for abundant fall feed, or for a second mowing. Remove all stones and other obstructions which cause so much annoyance while gathering the crop. Keep out all stock until the grass is again strongly re-established.

PASTURES suffer very severely if fed too closely during hot weather, so that the roots are burned by the sunshine. Keep no more stock than can be well fed, and at the same time allow the grass lands to remain in good condition.

COOKING PEAS.—Gather and shell the peas at night, and put them in cold water, in which you have previously thrown a handful of salt. In the morning pour off the water and put them in boiling water. Let them stew for 35 minutes, and then put in half cupful of sweet cream, with a piece of butter the size of an egg, and a tablespoonful of flour. Stew for five minutes longer—send to the table hot, and you have a dish fit for an epicure.

Upon the frontier of the shadowy land,
We, pilgrims of eternal sorrow, stand;
What realm lies forward, with its happier store
Of forests green and deep, of valleys hushed in sleep,
And lakes most peaceful? 'Tis the land of nevermore.

1	3	4 47	7 25	14 38	0 6 0	17 55	6 0	mor	♐	DRAINING is now practicable in many places to wet at other seasons. Improve the present opportunity if practicable. If nothing more can be done, dig a ditch around swamps to cut off the supply of water from adjacent high grounds, and thus prepare for more thorough work in the future. Retentive soils will be benefitted by underdraining. If tile can not be obtained at reasonable cost, lay drains of loose stone. Dig ditches 2 1-2 to 3 feet deep, 40 to 80 feet apart, according to the nature of the ground, lay a course of flat stones at the bottom, and above these set large stones inclining together in wedge shape, then fill in with small stones, and cover with brush, straw, and earth. Brush drains alone will amply repay their cost in many situations where better material can not be readily procured.

FALLOWS should be plowed if the weeds are preparing to ripen seed. They may thus be made to fertilize the ground from which they have drawn part of their nourishment.

CHEESE-MAKING will still be more profitable than the manufacture of butter, during the warm weather, where there are not conveniences for keeping the dairy cool. Endeavor by cleanliness and care in all the operations, to produce a first class article.

TRUE NOBILITY.—The day laborer who earns, with horny hand and the sweat of his brow, coarse food for a wife and children whom he loves, is raised by this generous motive to true dignity; and though lacking the refinements of life, is a nobler being than he who thinks himself absolved by wealth from serving others.

HE who gives up is soon given up; and to consider ourselves of no use is the almost certain way to become useless.

the coming winter. Secure the weeds, wild grass, etc., from waste places, for the same purpose.

It is one of the common complaints of those living in stone or brick houses improperly built, that they are damp and unwholesome. This need not be. Those which are damp, are so for the same reason that a pitcher of cold water "sweats" in hot weather. They condense the moisture of the air. The only way to prevent this, is to put some kind of non-conductor between the wall and the air of the apartments. A body of confined air is perhaps the best non-conductor. "Fur off" an inch or two from the solid wall, plaster tightly, and it will keep out frost and moisture better than a foot of solid granite. Even a cellar can be made dry and comparatively healthy by this simple treatment of its walls.

Plow at once for winter grain, if it be not already completed.—Deepen the soil by going an inch below the last plowing. This can be done with less risk for winter grain, than with spring crops.

Never does a man portray his own character more vividly than in his manner of portraying another's.

SEASONABLE HINTS.

BUTTER.—Increase the quantity & quality by feeding the cows with pumpkins, surplus cabbage leaves, beet, carrot, and turnip tops, etc., as the pastures fail. Pack a full supply for winter use. If properly made, thoroughly worked, and stored with care, butter made now will command an extra price before Spring.

PLOW deeply heavy land that is intended for corn next year, and leave it exposed in ridges. The frost will pulverize the lumps and otherwise prepare it for working in Spring.

APPLES.—These should be picked and handled with care, to prevent bruising.—The later sorts may be left on the trees until frosts occur.—Pick in dry weather. They keep best when left on the trees until quite late in the season. A light frost will not injure them. Pick carefully, and leave them in the orchard or out-house to sweat for a few days, and only take to a cool dry cellar when there is danger of their being injured by hard frost.

TO PRESERVE TOMATOES.—For seven pounds of ripe tomatoes, use half their weight of finely pulverized sugar. Stew one-fourth pound of green ginger root in water until soft. Remove the skins from the fruit without scalding. Dissolve and boil the sugar in a little water until it is thick, then put in the tomatoes, and take from the fire. When cool, skim them out, heat the syrup, throw in the fruit, until the process is repeated three times. Then add all together, and boil gently until done. Let the syrup become thick before the tomatoes are put in it. Seal the jars with paste made of rye flour, wet with cold water, and keep in a dry place. This will keep all winter.

LEARNING teaches youth temperance, affords comfort to old age, gives riches and contentment to the poor, and is an ornament to the rich.

Thither we hasten through these regions dim ;
But lo ! the wide wings of the seraphim
Shine in the sunset. On that joyous shore
Our lightened hearts shall know the life of long ago;
The sorrow-burdened past shall fade for evermore.

We have adopted another way, which we like much better. A few bushels of fine clean moss is obtained from dense woods or from swamps. Clean barrels or smooth-planed boxes are taken to the garden, (a dry day being selected for the occasion,) and the vegetables being taken up, well cleaned, topped, and trimmed, are placed in the barrels or boxes, with alternating layers of the soft, damp moss. When filled, the handcart or wheelbarrow conveys them to the cellar. The moss keeps them clean and sufficiently moist, preventing the accumulation of water on the one hand, and the drying and shrivelling of the roots on the other. They are always fresh and ready for use, and are taken out from under the moss without the least difficulty. As the barrel is successively emptied, a portion of the moss is taken off and placed in another for future use.

A LIE is the handle which fits all sins.

Naked and lone stands the rose bush fair,
Whirled are the leaves in the autumn air;
Withered and dead they fall to the ground,
And silently cover a new-made mound—
And the years glide by.

THE LORD OF THE SOIL.—The man who stands upon his soil, who feels that by the laws of the land in which he lives—by the laws of civilized nations—he is the rightful and exclusive owner of the land which he tills, is by the constitution of our nature under a wholesome influence not easily imbibed from any other source. He feels—other things being equal—more strongly than another, the character of man as lord of an inanimate world. Of this great & wonderful sphere, which, fashioned by the hand of God, and upheld by His power, is rolling through the heavens, a part is his—his from the centre to the sky. It is the space on which the generation before him moved in its round of duties, and he feels himself connected by a visible link with those who follow him, and to whom he is to transmit a home.—*Everett.*

SALTING AND PACKING PORK.—A correspondent of the American Agriculturist gives the following directions on this subject:—"I will tell you my mode after an experience of forty years. I allow the hogs to cool after killing; take out the bones [ribs and spine;] cut off the hams and shoulders; then cut the side pork into strips of convenient width; put in a quantity of salt in the bottom of the cask; then put in a course of meat, laying the pieces on the edges; then a covering of salt; then ano her course of meat, and so on until the cask is full. The whole is carefully kept covered with brine as strong as salt and boiling water will make, skimming the boiling brine so long as anything rises. The brine is put on cold, and I am careful to know that there is always undissolved salt in the barrel. It is not found necessary to scald the brine in spring. I sometimes use saltpeter and sometimes not. Hams and shoulders are salted in seperate casks.'

HUSBAND AND WIFE.—Two persons who have chosen each other out of all the species, with design to be each other's mutual comfort and entertainment, have, in that very action, bound themselves to be good-humored, affable, joyful, forgiving and patient, with respect to each other's frailties and imperfections to the end of their lives.—*Addison.*

DR. WISTAR'S

BALSAM OF WILD CHERRY

HAS BEEN USED FOR NEARLY

HALF A CENTURY!

with the most astonishing success in Coughs, Colds. Hoarseness, Sore Throat, Influenza, Whooping Cough, Croup, Liver Complaint, Bronchitis, Difficulty of Breathing, Asthma and every affection of

——THE——

THROAT, LUNGS & CHEST

INCLUDING EVEN

CONSUMPTION!

So general has the use of this remedy become, and so popular is it everywhere, that it is unnecessary to recount its virtues. Its works speak for it, and find utterance in the abundant and voluntary testimony of the many, who from long suffering and settled disease, have by its use been restored to pristine vigor and health. We have space only for the following:—

UNSOLICITED TESTIMONY,

From REV. FRANCIS LOBDELL. *Pastor of the South Congregational Church, Bridgeport, Connecticut.*

BRIDGEPORT, January 21, 1864.

Messrs. SETH W. FOWLE & Co., Gentlemen:—I consider it a duty which I owe to suffering humanity to bear testimony to the virtues of DR. WISTAR'S BALSAM OF WILD CHERRY. I have used it—when I have had occasion for any remedy for Coughs, Colds or Sore Throat—for many years, and never, in a single instance, has it failed to relieve and cure me. I have frequently been very hoarse on Saturday, and looked forward to the delivery of two sermons on the following day with sad misgivings, but by a liberal use of the Balsam my hoarseness has invariably been removed, and I have preached without difficulty.

I commend it to my brethren in the ministry, and to public speakers generally, as a certain remedy for the bronchial troubles to which we are peculiarly exposed.

Entirely unsolicited I send you this testimonial, which you are at liberty to use in any way you choose. Perhaps the Balsam does not affect all persons alike, but it always removes my hoarseness, and fits me for the minister's hard working day,—the Sabbath.

Very truly yours. FRANCIS LOBDELL.

CLERGYMEN, LAWYERS, SINGERS,

and all those whose profession requires an unusual exercise of the vocal organs, will find this the ONLY REMEDY which will effectually and instantaneously relieve their difficulties. This remedy, unlike most others, is not only not nauseous, but extremely

PLEASANT TO TASTE.

A small quantity allowed to pass over the irritated part at once removes the difficulty.

SETH W. FOWLE & CO. PROPRIETORS.

IMPORTANT

TO ALL

INVALIDS !

IRON IN THE BLOOD.

It is well known to the medical profession that IRON is the VITAL PRINCIPLE or LIFE ELEMENT of the blood. This is derived chiefly from the food we eat; but if the food is not properly digested, or if, from any cause whatever, the necessary quantity of iron is not taken into the circulation, or becomes reduced, the whole system suffers. The bad blood will irritate the heart, will clog up the lungs, will stupefy the brain, will obstruct the liver, and will send its disease-producing elements to all parts of the system, and every one will suffer in whatever organ may be predisposed to disease. The great value of

IRON AS A MEDICINE

is well known and acknowledged by all medical men. The difficulty has been to obtain such a preparation of it as will enter the circulation and assimilate at once with the blood. This point, says Dr. Hayes, Massachusetts State Chemist, has been attained in the Peruvian Syrup, by *combination in a way before unknown.*

THE PERUVIAN SYRUP

is a PROTECTED solution of the PROTOXIDE OF IRON.
A NEW DISCOVERY IN MEDICINE,
that STRIKES AT THE ROOT OF DISEASE by supplying the blood with its
VITAL PRINCIPLE OR LIFE ELEMENT—IRON.

THE PERUVIAN SYRUP

Cures Dyspepsia, Liver Complaint, Dropsy, Fever, and Ague, Loss of Energy, Low Spirits.

THE PERUVIAN SYRUP

Infuses strength, vigor, and new life into the system, and builds up an "*Iron Constitution.*"

THE PERUVIAN SYRUP

Cures Chronic Diarrhœa, Scrofula, Boils, Scurvy, Loss of Constitutional Vigor.

THE PERUVIAN SYRUP

Cures Nervous Affections, Female Complaints, and all diseases of the Kidneys and Bladder.

THE PERUVIAN SYRUP

is a SPECIFIC for all diseases originating in
A BAD STATE OF THE BLOOD,
or accompanied by DEBILITY or a LOW STATE OF THE SYSTEM.

Pamphlets containing certificates of cures and recommendations from some of the most eminent Physicians, Clergymen, and others, will be sent FREE to any address.

Prepared as usual by N. L. CLARK & CO., and sold by SETH W. FOWLE & CO., 18 Tremont Street, Boston, J. P. DINSMORE, 491 Broadway, New York. and by all druggists.

REDDING'S RUSSIA SALVE.

FORTY YEARS' EXPERIENCE

HAS FULLY ESTABLISHED THE SUPERIORITY OF

REDDING'S RUSSIA SALVE

OVER ALL OTHER HEALING PREPARATIONS

FOR THE CURE OF

Scalds,
Burns, Cuts,
Flesh Wounds, Boils,
Chilblains, Blisters, Bruises,
Felons, Piles, Erysipelas, Ulcers, Salt
Rheum, Injury by Splinters, Warts, Old Sores,
Ring Worm, Frost Bitten Parts, and all cutaneous
DISEASES AND ERUPTIONS GENERALLY.

REDDING'S RUSSIA SALVE

Is perfectly free from any mercurial matter or injurious particles, and in no cases will its application interfere with the remedies that may be prescribed by a regular physician. The Medical Faculty, throughout the Union, are unanimous in its praise. The more its virtues become known the greater is the demand, and it is now considered an indispensable article of household necessity,—being used alike by rich and poor.

REDDING'S RUSSIA SALVE

Is prompt in action, removes pain at once, and reduces the most angry looking swellings and inflammations, as if by magic,—thus affording relief and a complete cure. The length of time this salve has been before the public is conclusive proof that it is no "catchpenny" preparation, put forth to have a ficticious popularity, and then sink to rise no more.

REDDING'S RUSSIA SALVE

Is put up in metal boxes, three sizes, at 25 cents, 50 cents and $1 00, the largest size contains the quantity of six of the smallest boxes. It is warranted to retain its virtues in any climate. Each wrapper has a picture of a wounded soldier, with an army surgeon stooping over him,—his horse standing by; and the signature of "Redding & Co.," immediately above.

E. P.—U. C. R.—T. A.

Hunnewell's Great Remedies.

THE TRUE FORM OF A CATHARTIC.—By the application of true Medical Laws, both character and economy are combined in this most valuable Pill. To prevent putting into the stomach such quantities of indigestible and injurious drugs usually contained in Pills that require from four to six to get a decent cathartic, and to prevent the *Griping Pains* so erroneously judged to be evidence of character, was the study in this development. This dose seldom exceeding *one*, and never more than *two* Pills, settles the question of economy, and confidence is asked to test their true character in *Dyspepsia, Costiveness, Biliousness, Liver Complaints, Piles*, all derangements of the *Stomach* and Bowels, and as a true Family Pill. For *Worms* they are a sure cure.

The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which *Throat* and *Lung Complaints* can be effectually cured.

To prevent asking attention to long stories of great cures, when local causes make almost all such complaints different in effect, I would ask confidence, which will be sacred, in *Colds, Coughs, Hoarseness, Sore Throat, Bronchial* and *Asthmatic Complaints, Whooping Cough*, and to all *Throat* and *Lung Complaints*, which, when neglected, end in *Consumption*. Testimonials from Physicians of the hightest respectability, and from invalids, can be seen at my office by all interested.

This justly celebrated preparation, which has so truly earned the name and fame of a *True Anodyne* by results which had baffled every other attempt at cure or relief in *Neuralgia, Rheumatism, Gout, Nervous Headache, Tooth* and *Ear Ache, Cholera Morbus, Pains in the Stomach or Bowels*, Hysteria, Distress after Eating, Loss of Sleep, General Nervous Debility, Paroxysms in Asthma and Whooping Cough, now declared to be largely nervous, and for the Pains in *Monthly Menstruation*, also declared to be one of the most important points in medicine. A lady writes from New York, "were it *ten dollars a drop*, I would not be without it in my family, and no one should be without it."

MESSRS. REED, CUTLER & CO.: Gentlemen—We have used as a family medicine the Vegetable Pulmonary Balsam for more than thirty years. I have given it in very many cases in this city and State, and in some of the other States. Could cite many instances of very gratifying relief from its use, and some,where, under God, it was the means of very remarkable cures. I esteem it an invaluable medicine for pulmonary complaints, and cheerfully give my testimony accordingly, and if it can be the means of extending the use of the Balsam, and thus benefit my fellow-men, it will fully reward and highly gratify me. Yours,

Dec. 2, 1863. (Signed) ASA WILBUR.

From the Boston Traveler, Dec. 14, 1863.

A FAVORITE LUNG AND THROAT REMEDY.—From long experience and personal knowledge, we take pleasure in calling attention to the advertisement under special notices, of the old standard remedy, "The Vegetable Pulmonary Balsam." It has now fully sustained an unprecedented reputation of nearly forty years, and its recommendations are of the strongest and most reliable character. An article which has achieved such signal success from its own merits, and won the favorable notice of the most distinguished among all classes, is surely entitled to the confidence of all who have occasion to use a remedy for pulmonary complaints.

Its proprietors are Messrs. Reed, Cutler & Co., the well-known druggists of this city. They are above deception or quackery, and depend upon the acknowledged virtues of this preparation for its sale; and one great object of their advertisement is to caution the public against the many worthless medicines often palmed off under the pretext of being the same or something just as good.

If persons would use the same discrimination in buying this class of goods, where matters of life and death are involved, that they do in affairs of minor importance, and judge more from the source and reputation of the originators, instead of being influenced by the flaming placards stuck all over the country, and thrust upon one from every corner of the streets, there would be much less prejudice against this class of medicines, some of which are of real worth; and among them the Vegetable Pulmonary Balsam is preeminently one.

WILBOR'S COMPOUND OF

PURE COD LIVER OIL AND LIME.

FOR CONSUMPTION it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and, in tens of thousands, has arrested the disease in its primary stages, and restored the patient to robust health.

BRONCHITIS.—Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.

FEMALE DEBILITY.—To sustain and augment the vital forces, to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body—nothing can be better adapted than this preparation.

In Asthma, General Debility. Emaciation. Coughs it is a reliable remedy Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects became obvious. Be careful and get the genuine manufactured only by A. B. WILBOR, Chemist, 166 Court Street, Boston.

Save Your Money!

DON'T PAY ONE DOLLAR

For a small bottle of HAIR DYE, when you can get a bottle five times as large of a better Dye, for the same money.

WILBOR'S MONITOR HAIR DYE

IS SUPERSEDING ALL OTHERS.

It requires no preparation, does not smut or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied at the roots without more trouble than a common hair oil.

It is warranted not to injure the Hair or Skin

Manufactured only by ALEX. B. WILBOR, Chemist, No. 166 Court Street, Boston.

DR. POLAND'S

WHITE PINE COMPOUND !

THE GREAT AND POPULAR REMEDY FOR THE CURE OF

COLDS, COUGHS, HOARSENESS, SORE THROAT, CROUP, AND WHOOPING COUGH.

Cures Gravel and all Kidney Diseases.

There have been many severe cases in Boston and vicinity cured by the WHITE PINE COMPOUND, which can be referred to; and hundreds of cases of Kidney complaints CURED ENTIRELY by taking the *White Pine Compound*. have been reported by Druggists.

In the winter of 1854 5; Rev. J W. POLAND, then of Goffstown Center, N H., compounded a small quantity of medicine for a member of his family, who was afflicted with a disagreeable irritation of the throat. Knowing that the White Pine Bark was useful in cases of inflammation, he made that the BASIS of his article. It was necessary to combine the Bark with other ingredients, to modify its action as an astringent. Of course it was AN EXPERIMENT. It would not injure—it might do good. The result was most surprising. A permanent cure was effected within a week, and there has been no return of the difficulty for NINE YEARS, though it was of long standing.

A second small quantity was prepared for a lady who had a bad cough, and had raised some blood, and she was cured of it. Two or three other individuals made a trial of it, and experienced a wonderful relief in throat difficulties. But with all these flattering results, not a thought was entertained of ever putting it on sale, till several months had elapsed.

TESTIMONIALS.

A very large number of important testimonials have already been received from Physicians, Clergymen, Apotheecaries, and, indeed, from all classes in society, speaking in the most flattering terms of the White Pine Compound.

Dr. Nichols of Northfield, Vt., says:

"I find the White Pine Compound to be very efficacious, not only in coughs and other pulmonic affections, but also in affections of the kidneys, debility of the stomach, and other kindred organs."

Rev. J. K. Chase of Rumney, N. H., says:

"I have for years regarded your White Pine Compound as an invaluable remedy. I can truly say that I regard it as even more efficacious and invaluable than ever. I have just taken the Compound for a cold, and it works charmingly."

Rev. H. D. Hodge of West Randolph, Vt., who is also a physician, says:

"I find it (the Compound) an excellent medicine in kidney diseases."

Says Mr S H Boody, of the 14th Regiment Massachusetts Heavy Artillery, at Fort Tillinghast:

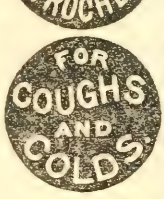
"The White Pine Compound effected a cure where a fellow was considered in a critical consumption by all who knew him. I can fully substantiate this by men in this Company who thought it folly for him to make a trial of it. In colds and coughs, men leave the care of the surgeon, where treatment can be had for nothing, and try the White Pine Compound."

SOLD BY DRUGGISTS EVERYWHERE.

A COUGH, COLD,

—OR AN—

Irritated Throat,



if allowed to progress, results in serious Pulmonary and Bronchial Affections, oftentimes incurable.

BROWN'S BRONCHIAL TROCHES reach *directly* the affected parts and give almost instant relief. In BRONCHITIS, ASTHMA, and CATARRH they are beneficial. The good effect resulting from the use of the Troches, and their extended use, has caused them to be counterfeited. Be sure to guard against worthless imitations. OBTAIN only the *genuine Brown's Bronchial Troches*, which have *proved* their efficacy by a test of many years. PUBLIC SPEAKERS and SINGERS should use the Troches. They are invaluable for allaying the hoarseness and irritation incident to vocal exertion, clearing and strengthening the voice. Military Officers and Soldiers, who overtax the voice, and are exposed to sudden changes, should have them.

From the Medical Director of the General Hospital, Benton Barracks, near St. Louis, March 8, 1862.

Messrs JOHN I. BROWN & SON, BOSTON, MASS. "Use of your far-famed and most serviceable "*Troches*" is being made in the hospital of which I have charge, and with very beneficial and decided results in allaying bronchial irritation and morbid sensitiveness of mucuous membrane of glottis and parts adjacent."

From R. B. Heintzleman, Steward 72d Reg't P. V.

"Your medical preparation (Brown's Bronchial Troches) is certainly valuable to soldiers in the field, and I feel satisfied, if generally adopted at the hospitals, many sleepless nights of the weary soldier would be averted. Our regiment are now testing their qualities, and I believe are all satisfied of their good effects in alleviating those distressing affections of the throat arising from cold and exposure. They are now daily prescribed in our hospital and at the surgeon's morning call."

Sold everywhere at 35 cents a box.

BLACK
WRITING INK.

Testimony of Parties who have used it for more than a Quarter of a Century.

REGISTRY OF DEEDS OFFICE,
Boston, Jan. 10, 1859.

Messrs. MAYNARD & NOYES—*Gentlemen:* I am glad that longer use of your Writing Ink enables me to repeat the testimony given in its favor many years ago. I have used it in this office thirty-seven years, and my oldest records are as legible and black as when first written. This rare quality for permanence renders it invaluable for State and County Records and all mercantile purposes, where it is important that the writing should remain legible and unchanged in color by the lapse of time.

HENRY ALLINE, *Register of Deeds.*

The following extract from a letter of a well-known and long established Bookseller in Dover, N. H., is like many others the proprietors are constantly receiving:

"After trying various kinds of Ink, most of my customers come back to yours. I am tired of the miserable compounds offered every little while, pretending to be superior to all other inks, and will have nothing further to do with them. I have used your Ink on my books over twenty-six years, and my customers can see how it stands against time. Entries made in 1832 are as fresh as those made during this year.

E. J. LANE."

Dover, N. H., Oct. 16, 1858.

Maynard & Noyes' Copying Ink.

This Ink yields a copy as distinct and perfect as the original. It also combines all the properties of our Writing Ink, for which it can be substituted.

Maynard & Noyes' Carmine Ink.

This article is a beautiful red or crimson color, and surpassingly brilliant and rich. It is free from sediment, and will not mould, fade, or turn dark by exposure to the air.

The above popular Inks, together with Blue, Red, Indelible and Stencil Ink, Chemical Writing Fluid, Ink Powder, &c., is for sale by the Manufacturers,

Nos. 75 and 77 Water Street, Boston,

and by Stationers and Hardware Dealers generally.

——Came old January, wrapped well
In many weeds to keep the cold away;
Yet did he quake and quiver like to quell,
And blowe his nayles to warm them if he may;
For they were numbed with holding all the day
An hatchet keene, with which he felled wood,
And from the trees did lop the needless spray;
Upon an huge great Earth-pot Steane [stone] he stood,
From whose wide mouth there flowed forth the Romane flood.

represented the sign of the Zodiac, to which the month responds. The almanac contains some curious information on the agriculture and religion of the Romans. At the top of each column, and under the sign of the Zodiac, is the name of the month and the number of days. The number of hours of the day and night is also marked, the sign of the Zodiac in which the sun appears is also named; the days of the Equinoxes and of the Summer solstice are also given. Next, farmers are reminded of the principal operations that ought to be carried on during the month. The almanac terminates by the religious part; it points out the god who presides over each month; gives a list of the religious *fêtes*, and warns the farmer not to neglect the worship of those protecting divinities if he wishes to prosper.

——Then came old February, sitting
In an old wagon, for he could not ride,
Drawn of two fishes for the season filling,
Which through the flood before did softly slide
And swim away; yet had he by his side
His plough and harness fit to till the ground,
And tools to prume the trees, before the pride
Of hasting prime did make them bourgeon wide.

If the old advice, 'in peace prepare for war,' be true wisdom, we may well say: In Winter prepare for spring. Take Old Time by the forelock and lead him in the dance yourself.

CHEESE-FACTORIES have become a profitable and therefore firmly fixed institution for the dairy men. Why not spend some of the winter days in arrangements for one in your neighborhood? It is said the extra value of factory-made cheese above

PERHAPS every cook does not know how to make good fish-balls, so we give this:

FISH-CAKE.—Carefully remove the bones and skin from any fish that is left from dinner, and put it into warm water for a short time. After taking it out press it dry, and beat it in a mortar to a fine paste with an equal quantity of mashed potatoes; season to taste. Then make up the mess into round flat cakes or balls, and fry them in butter or lard till they are of a fine golden-brown color. Be sure they do not burn. Salted cod-fish, freshened, is excellent recooked after this fashion.

And armed strongly, rode upon a ram,
The same which over Hellespontus swam,
Yet in his hand a spade he also bent
And in a bag all sorts of weeds, (seeds) y same
Which on the earth he strewed as he went,
And filled her womb with fruitful hope of nourishment.

In Italy it seems it was seed-time, out it is rather too early for that in this region, where the time is better spent in catching the sap of the life-giving maples.

How to Restore Color in Silks.—A writer in the *Technologist* gives the following for the removal of acid stains from colored silks. Brush the part with tincture of iodine; after a few seconds, saturate with hydro-sulphite of soda and dry gradually. The color will be perfectly restored. The reagents may be procured at drug stores.

To Wash Colored Muslins.—To set the color, pour boiling water on the dress previously to its being washed, and allow it to remain in it until quite cold.

To Wash Black Cashmere.—Procure three cents worth of ammonia, and pour a quart of boiling water upon it. As soon as the ammonia is dissolved, dip the cashmere into the solution once or twice piece by piece, shake it out, (never wringing it), and hang it up to dry. This process will completely clean the black materials, free it from all greasiness and restore its color.

If you would find a great many faults, be on the lookout. If you would find them in still greater abundance, be on the look-in.

Never Sulk.—Better draw the cork of your indignation, and let it foam and fume, than wire it down to turn sour and acrid within. Sulks affect the liver, and are still worse for the heart and soul.

Next came fresh April, full of lusthed,
And wanton as a kid whose horn new buds;
Upon a bull he rode, the same which led
Europa floating through the Argolick fluds;
His horns were gilden all with goolden studs,
And garnished with garlands goodly sight,
Of all the fairest flowers and freshest buds,
Which th' earth brings forth; and wet he seemed in sight
With waves through which he waded for his love's delight.

than any other of the pure breeds.—These will be very good cows, and perhaps the very best, for thin and meagre pasturage. The Jerseys have their peculiarities. For richness of milk, and the butter made from it, no pure breed can excel. For poor pastures and hard winters they are not equal, as it is said by some breeders, to the Ayrshires. Other as reputable breeders, say that no cow exceeds the Jersey in hardiness. A farmer with a herd of Ayrshires or Ayrshire grades, could not do better than to have a Jersey or two to color and flavor his milk and butter.

The Devon is not usually a good milker. The Devon crossed with our native cow would be good for a mere stock raiser. For working oxen and the shambles, they are very valuable. Their beef is excellent. No beef is sweeter, and none so well "mixed."

The largest room in the world is the 'room for our improvement.'

Deckt all with dainties of her season's pryde,
And throwing flowres out of her lap around :

And leapt and daunc't as they had ravisht beene!
An Cupid selfe about her fluttered all in greene.

ERADICATION OF THE OX-EYE DAISY.—J. J. Thomas states in the *Country Gentleman* that on a farm which he lately visited in Pennsylvania, the ox-eye daisy has been so thoroughly eradicate that not a plant could be seen, though it is generally abundant in the neighborhood. The mode practiced for its extirpation is to plant two hoed crops in succession, usually Indian corn, both being well manured, to be followed by wheat and seeded by clover. The few weeds which show themselves are dug up.

Show can easily be purchased; but happiness is always a home-made article.

——After her came jolly June, arrayed
All in green leaves, as he a player were;
Yet in his time he wrought as well as played,
That by his plough-irons mote right well appear.
Upon a crab he rode, that did him bear,
With crooked crawling steps, an uncouth pace,
And backward rode, as bargemen wont to fare,
Bending their force contrary to their face;
Like that ungracious crew which feigns demurest grace.

ing point, the cream will rise very slowly, because it becomes solidified. In wet and cold weather milk is less rich than in dry and warm. The season has its effects. The milk in Spring is supposed to be the best for drinking, and hence it would be best for calves; in summer it is best suited for cheese, and in Autumn, the butter keeping better than that of Summer, the cows less frequently milked give richer milk, and consequently more butter. The morning's milk is richer than that of the evening. The last drawn milk, the "strippings" at each milking, and at all times and seasons, is richer than that first "milked," which is ever the poorest.

It is the law in Japan that no fir or cypress tree can be cut down without permission of a magistrate, and for every full grown tree that is felled a sapling must be planted.

Then came hot July, boiling like to fire,
That all his garments he had cast away;
Upon a lion raging yet with ire
He boldly rode, and made him to obey:
(It was the beast that whilom did foray
The Nemæan forest, till the Amphitrionide
Him slew, and with his hide did him array:)
Behind his back a scythe, and by his side
Under his belt he bore a sickle circling wide.

SEASONABLE HINTS.

PASTURE MANAGEMENT.—The Scottish Farmer has the following advice on this subject:—

"To manage pasture lands advantageously, they should be well fenced in small fields—*i. e.*, according to the size of the farm and the quantity of stock kept. It is folly to turn in all sorts of cattle promiscuously. Milch cows, fattening beasts, and oxen, should have the first feeding; sheep and horses afterwards. When the field is fed off, it should be shut up, and the dung which has been dropped should be scattered, and bush-harrowed and rolled. All coarse herbage which has been rejected by the various animals should previously be mown and carried off; but this operation will not be necessary where the fields have been properly laid down. The second and third fields should be treated in the same manner. There is a considerable saving by allowing all grazing animals to take their turn, as all the herbage produced will be consumed, much of which would otherwise be trodden under foot."

Three or four small pastures, fed off in succession, will yield altogether more food for stock than the same quantity of pasture land in one body constantly cropped by the cattle.

WE should round every day of stirring action with an evening of thought. We learn nothing of our experience except we muse upon it.

Do not wait supinely for opportunity to come to you, but go and seek her in the highways and hedges.

The eighth was August, being rich arrayed
In garment all of gold, down to the ground:
Yet rode he not, but led a lovely maid
Forth by the lily hand, the which was crowned
With ears of corn, and full her hand was found.
That was the righteous Virgin, which of old
Lived here on earth, and plenty made abound;
But after wrong was loved, and justice sold,
She left th' unrighteous world, and was to heaven extolled.

When it boils, skim it, and put in your currants, and boil again till they become quite clear. Put them in a jar, cover them with white paper dipped in brandy, and keep them in a dry place. Gooseberries may also be preserved in the same way. It is a good plan in preserving these fruits, to remove the blossoms, which, in a dried state, adhere somewhat tenaciously to the blossom end of the fruit, by careful washing. —*Germantown Telegraph.*

DRYING HERBS.—We have often given similar directions for preserving herbs for future use, as the following:

"Herbs for drying for future use should be cut just about the time they are coming into flower. Dry them in the shade, and after sufficiently dry to put away, tie them in bunches and hang in a cool shed, or place them loosely between papers, and stow away in cupboards or drawers—the last is by far the cleanest and most approved plan with the best housekeepers. Some, indeed, powder the leaves at once after drying, and put away in bags ready for use."

HOWEVER high house rents may be, you can always have at least one room at your command—the room for improvement.

ACTION is the great law; it is by steady, strong, continuous action that all great works are accomplished.

Next him September marched eke on foot,
Yet was he hoary, laden with the spoil
Of harvest riches, which he made his boot,
And him enriched with bounty of the soil;
In his one hand, as fit for harvest's toil,
He held a knife hook; and in th' other hand
A pair of weights, with which he did assoil
Both more and less, where it in doubt did stand,
And equal gave to each as justice duly scanned.

Put the blackberries into a jar and place the jar in hot water, keeping it boiling until the juice is extracted from the fruit. Pass it thro' a fine sieve or jelly-bag without much pressure. For every pint of juice add fourteen ounces of sugar, and boil in a clean preserving pan about five and twenty minutes, carefully taking off the scum as it rises to the surface. Place it hot in small jars and cover it down with thin tissue paper dipped in brandy, and brown paper over it. Keep it in a cool dry place.

REMEDY AGAINST MOTHS.—An ounce of gum camphor and one of powdered shell of red pepper and macerated in eight ounces of strong alcohol for seven days, and then strained. With this tincture, the furs or cloth are sprinkled over and rolled up in sheets.—This remedy is used in Russia under the name of "Chinese tincture for moths," and is found very effective.

GREEN CORN PUDDING.—Take 12 good sized ears of corn, grate or shave it off thin, add to it 2 quarts of milk, 1 cup of sugar, a small piece of butter, 2 eggs well beaten, 1 teaspoonful salt, 1 of saleratus, and spice with nutmeg. Bake three hours.

Then came October full of merry glee
For yet his noule (head) was sotty (dizzy) of the must,
Which he was treading in the wine-fat's see,
And of the joyous oyle, whose gentle gust
Made him so frolic and so full of lust:
Upon a dreadful Scorpion he did ride,
The same which by Diana's doom unjust
Slew great Orion; and eeke by his side
He had his ploughing share and coulter ready tyde.

FRUITS —Acids promote the separation of the bile from the blood, which is then passed from the system, thus preventing fevers, the prevailing diseases of summer and early autumn. All fevers are 'bilious,' that is, the bile is in the blood. Whatever is antagonistic of fever is cooling. It is a common saying that fruits are 'cooling,' and also berries of every description; it is because the acidity which they contain aids in purifying the blood. Hence the great yearning for greens, and lettuce, and salads in the early spring, these being eaten with vinegar; hence, also, the taste for something sour, for lemonades, on an attack of fever. But this being the case, it is easy to see that we nullify the good effects of fruits and berries, in proportion as we eat them with sugar, or even with sweet milk or cream. If we eat them in their natural state, fresh, ripe, perfect, it is almost impossible to eat too many, to eat enough to hurt us, especially if we eat them alone, not taking any liquid with them whatever

SOMETIMES a girl says no to an offer, when it is as plain as the nose on her face that she means yes. The best way to judge whether she is in earnest or not, is to look straight into her eyes, and never mind her *noes*.

As fed with lard, and that right well might seeme;
For he had been a fatting hogs of late,
That yet his browes with sweat did reek and steam,
And yet the season was full sharp and breem; (chill)
In planting eke he took no small delight:
Whereon he rode, not easie was to deem;
For it a dreadful Centaure was in sight,
The seed of Saturne and fair Nais, Chiron hight. (called.)

SEASONABLE HINTS.

CIDER MAKING.—I was out shooting in Connecticut, and the day being very warm I stopped at a farm to procure a drink of water. The farmer's wife offered me a mug of cider. It was sweet, clear in color, and lively to the taste, and had been made but a short time. She told me, however, that it would improve and keep perfectly sweet in the barrel for a year to come. I asked her how she accomplished this feat, supposing that she added something to the cider to produce this result. It was not so, however; she simply scalded it as it came from the press, and she 'didn't mind if it had a smart boil.' It was skimmed during the process as long as any scum was thrown up, and then poured into clean barrels or casks, and the bung put into it without driving it down hard. When she wished it to be very nice, she poured it into the barrel through a strainer. No fermentation sufficient to affect its sweetness occurred, and it improved by keeping.—*Country Gent.*

VALUABLE RECIPES.—For preserving the complexion: temperance. For whitening the hands: honesty. To remove stains: repentance. For improving the sight: observation. The most valuable ring: the home circle. For improving voice: civility. The best rouge: modesty. The best eye-water: charity. A cure for deafness: attention. A mixture to clear the throat: cheerfulness. A wash for wrinkles: contentment. A general beautifier: contentment.

And after him came next the chill December;
Yet he through merry feasting which he made,
And great bonfires, did not the cold remember;
His Saviour's his mind so much did glad.
Upon a shaggy bearded goat he rode,
The same wherewith Dan (master) Jove on tender years,
They say, was nourisht by th' Idean mayd;
And in his hand a broad deepe bowle he beares,
Of which he freely drinks an health to all his peeres.

Approaching a basket well filled with fish, he sighed, "If, now, I had these I would be happy. I could sell them at a fair price and buy me food and lodging." "I will give you just as good fish," said the owner, who chanced to overhear his words, "if you will do me a trifling favor. Only to tend to this line till I come back." The proposal was gladly accepted. The old fisherman was gone long. Meanwhile, however, the hungry fish snapped greedily, and the young man lost his depression in the excitement of pulling them in, and caught a large number. Counting out from them as many as were in the basket and presenting them to the young man, the old fisherman said: "I fulfill my promise from the fish you have caught, to teach you that whenever you see others earning what you need, to waste no time in fruitless wishing, but to cast a line for yourself."

LAW OF LOVE.—Said an old man one day: "When I look back over the long pilgrimage of life, I can say that I never did a kindness to any human being without finding myself the happier for it afterward. A single friendly act, done to a fellow-creature in trouble, besides the good to him, has before now thrown a streak of sunshine into my heart for the remainder of the day, which I would not have taken a twenty-dollar bank-note for."

TO THE PUBLIC GENERALLY

AND TO

LADIES IN PARTICULAR.

THE "CIRAGE FRANCAIS," or "FRENCH DRESSING,"

is the most splendid article ever produced for the purposes for for which it is designed.

It restores Ladies' and Children's Boots and Shoes which have become red or rusty and rough by wearing, to a perfect and permanent black, at the same time giving them as much lustre as when new, leaving the leather perfectly soft and pliable as before; and, what is of great importance to the ladies, it will not come off when wet and soil the skirts.

Patent Leather Boots and Shoes, &c.,

which have become tarnished, are much improved by its use. For Carriage Tops, fine Harness, Trunks, Travelling Bags, Black Kid Gloves, &c., it is unequalled. Faded and shop-worn goods are restored to their original color, and will not again fade.

One trial of this elegant preparation will establish a place for it in every family. It is put up in bottles, with a sponge attached to the cork, ready for use, and a child can easily black its own shoes.

BOSTON, April 25, 1865.

MR. B. F. BROWN: Dear Sir, The "French Dressing for Ladies' and Children's Boots and Shoes." I esteem the best thing of the kind that has yet been produced. It is all that it purports to be; in fact, just the thing long been needed, and should be—as no doubt it soon will be,—found in every family throughout the country.

Respectfully yours, ELLERY PEABODY,
218 Washington Street.

NEW YORK, July 18, 1865.

We have used Brown's "French Dressing Blacking," and find it a very superior article. It exceeds anything of the kind ever used by us. MILLER & CO., 387 Canal Street.

NEW YORK, July 17, 1865.

Dear Sir,—I have used the French Dressing which I procured at your place, and take great pleasure in pronouncing it the most superior article I ever used. I shall not use anything else as long as I can procure this. Yours, &c.,
BIXBY, 8 Astor Place.

LAFAYETTE, Ind., June 28, 1865.

Mr. B. F. Brown, Boston: Dear Sir,—We take pleasure in testifying to the superiority, over all other similar dressings for leather, of the "Cirage Francais," or "French Dressing," manufactured by you. We have found it not only what is claimed for it by yourself,—an elegant dressing for ladies' and children's shoes,—but have also used it on various other articles, such as gentlemen's patent leather boots and shoes, leather trunks, carriage tops and cushions, fine harness, etc., on all of which we can testify to its superior merits in producing a handsome and permanent finish.

Very respectfully, CARNAHAN & GOODWIN.

"The Blood is the Life."

IMPORTANT TO ALL INVALIDS.

THE

PERUVIAN SYRUP

is a Protected Solution of the Protoxide of Iron. A New Discovery in Medicine, that strikes at the Root of Disease, by supplying the Blood with its Vital Principle or Life Element, IRON. This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Boils, Loss of Constitutional Vigor, Female Weaknesses, and all diseases originating in

A BAD STATE OF THE BLOOD,

Accompanied by Debility or a Low State of the System.

A TONIC WITHOUT ALCOHOL.

Dyspeptics and those suffering from Chronic Diseases, read the following:

PITTSTON, Luzerne County, Penn., April 5, 1865.

My Dear Sir: Having at various times, personally, and in my own and other families, tested the great value of the medicine called "Peruvian Syrup," or "Protected Solution of Protoxide of Iron," I most cheerfully recommend it, especially to those who are suffering from dyspeptic and nervous disorders. As a reliable and powerful alterative, it is, I think unsurpassed. And as a tonic, free from all the objectionable features of alcoholic remedies, it is a most efficient auxiliary to the temperance cause. One of the greatest hindrances to the temperance reform at present is, as I think, the medical use of alcoholic stimulants. Whatever may be argued as to their necessity in certain cases, we have in the "Peruvian Syrup," a safe and efficient substitute for those dangerous remedies. This testimony is given, unsolicited, with the hope that some who are not yet acquainted with the valuable properties of the medicine, may be induced to give it a trial.

Yours truly,

JOHN GREGORY,
Pastor of Wesleyan Methodist Church.

Thousands have been changed by the use of this remedy, from weak, sick, miserable creatures, to strong, healthy and happy men and women, and invalids cannot reasonably hesitate to give it a trial.

REED, CUTLER & CO., DRUGGISTS,

PROPRIETORS,

Nos. 109, 111 & 113 Board Street, Boston.

From Dea. Asa Wilbur, 29 Green Street, Boston.

Messrs. Reed, Cutler & Co.: Gentlemen--We have used as a family medicine the Vegetable Pulmonary Balsam for more than thirty years. I have given it in very many cases in this city and State, and in some of the other States. Could cite many instances of very gratifying relief from its use, and some, where, under God, it was the means of some very remarkable cures. I esteem it an invaluable medicine for pulmonary complaints, and cheerfully give my testimony accordingly, and if it can be the means of extending the use of the Balsam, and thus benefit my fellow-men, it will fully reward and highly gratify me. Yours,

Dec. 2, 1863. (Signed) ASA WILBUR.

From the Boston Traveler, Dec. 14, 1863.

A FAVORITE LUNG AND THROAT REMEDY.--From long experience and personal knowledge, we take pleasure in calling attention to the advertisement under special notices, of the old standard remedy, "The Vegetable Pulmonary Balsam." It has now fully sustained an unprecedented reputation of nearly forty years, and its recommendations are of the strongest and most reliable character. An article which has achieved such signal success from its own merits, and won the favorable notice of the most distinguished among all classes, is surely entitled to the confidence of all who have occasion to use a remedy for pulmonary complaints.

Its proprietors are Messrs. Reed, Cutler & Co., the well known druggists of this city. They are above deception or quackery, and depend upon the acknowledged virtues of this preparation for its sale; and one great object of their advertisement is to caution the public against the many worthless medicines often palmed off under the pretext of being the same or something just as good.

If persons would use the same discrimination in buying this class of goods, where matters of life and death are involved, that they do in affairs of minor importance, and judge more from the source and reputation of the originators, instead of being influenced by the flaming placards stuck all over the country, and thrust upon one from every corner of the streets, there would be much less prejudice against this class of medicines, some of which are of real worth, and among them the Vegetable Pulmonary Balsam is preeminently one.

An Excellent Ointment.

CURE OF ALL LUNG COMPLAINTS.

This well known remedy is offered to the public, sanctioned by the experience of over forty years, and when resorted to in season, seldom fails to effect a speedy cure of

Coughs, Colds, Croup, Whooping-Cough, Bronchitis, Influenza, Hoarseness, Pains or Soreness in the Chest and Side, Bleeding of the Lungs, Liver Complaints, &c.

Those who have not already made use of this Remedy we have only to refer to the written testimonials of many of our most distinguished citizens, who have been restored to health when the expectation of being cured was indeed a "forlorn hope." We have space only for the following

Unsolicited Testimony

From REV. FRANCIS LOBDELL, Pastor of the South Congregational Church, Bridgeport, Conn.

BRIDGEPORT, January 21, 1864.

Messrs. SETH W. FOWLE & Co.

Gentlemen—I consider it a duty which I owe to suffering humanity to bear testimony to the virtues of Dr. Wistar's Balsam of Wild Cherry. I have used it for Coughs, Colds or Sore Throat—for many years, and never, in a single instance, has it failed to relieve or cure me. I have frequently been very hoarse on Saturday, and looked forward to the delivery of two sermons on the following day with sad misgivings, but by a liberal use of the Balsam my hoarseness has invariably been removed, and I have preached without difficulty.

I commend it to my brethren in the ministry, and to public speakers generally, as a certain remedy for the bronchial troubles to which we are peculiarly exposed.

Entirely unsolicited I send you this testimonial, which you are at liberty to use in any way you choose. Perhaps the Balsam does not affect all persons alike, but it always removes my hoarseness, and fits me for the minister's hard-working day—the Sabbath.

Very truly yours,
FRANCIS LOBDELL.

A SLIGHT COLD, COUGH, Hoarseness OR SORE THROAT,

which might be checked with a simple remedy, if neglected, often terminates seriously. Few are aware of the importance of stopping a Cough, or "Slight Cold," in its first stage. That which in the beginning would yield to a mild remedy, if not attended to, soon attacks the lungs. The efficacy of

SKINNER'S PULMONALES

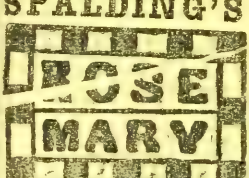
is demonstrated by testimonials from Physicians and eminent men, wherever they have been used.

PUBLIC SPEAKERS AND SINGERS

can use Skinner's Pulmonales, or Cough and Voice Lozenges, as freely as requisite,—containing nothing that can injure the system. They are invaluable in allaying the hoarseness and irritation incident to vocal exertion, and also a powerful auxiliary in the production of melodious enunciation, effectually clearing and strengthening the voice.

Prepared by EDWARD M. SKINNER, M.D., at his Medical Warehouse, 27 Tremont St., Boston, Mass. Sold by Druggists generally.

SPALDING'S



J. RUSSELL SPALDING'S

ROSEMARY.

This great and popular preparation is decidedly the nicest and best article in the world for

THE HAIR.

It imparts a richness and brilliancy, cleans, ornaments, invigorates, embellishes, removes dandruff, relieves headache, and has been used for restoring and preventing the falling-off of the hair with more success than any article ever known. It has stood the test of time and use, and all can rely upon it.

IT IS WARRANTED

1st. To beautify the hair.
2d. To curl the hair elegantly.
3d. To remove dandruff effectually.
4th. To restore hair to bald heads.
5th. To force the beard and whiskers to grow.
6th. To prevent the hair from falling off.
7th. To cure all diseases of the scalp.
8th. To prevent hair turning grey.
9th. To cure headache.
10th. To kill hair-eaters.

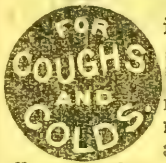
Prepared by EDWARD M. SKINNER, M. D., (Sole Proprietor,) at his Medical Warehouse, 27 Tremont Street, Boston, Mass. Sold everywhere.

A COUGH, COLD,

—OR AN—

IRRITATED THROAT,

if allowed to progress, results in serious Pulmonary and Bronchial Affections, oftentimes incurable.



BROWN'S BRONCHIAL TROCHES

reach directly the affected parts and give almost instant relief. In Bronchitis, Asthma, and Catarrh they are beneficial. The good effect resulting from the use of the Troches, and their extended use, has caused them to be counterfeited. Be sure to guard against worthless imitations. OBTAIN only the *genuine Brown's Bronchial Troches*, which have proved their efficacy by a test of many years. PUBLIC SPEAKERS and SINGERS should use the Troches. They are invaluable for allaying the hoarseness and irritation incident to vocal exertion, clearing and strengthening the voice. Military Officers and Soldiers, who overtax the voice, and are exposed to sudden changes, should have them.

From the Medical Director of the General Hospital, Benton Barracks, near St. Louis, March 8, 1862.

Messrs JOHN I. BROWN & SON, BOSTON, MASS "Use of your far-famed and most serviceable '*Troches*' is being made in the hospital of which I have charge, and with very beneficial and decided results in allaying bronchial irritation and morbid sensitiveness of mucous membrane of glottis and parts adjacent."

From R. B. Heintzleman, Steward 72d Reg't P. V.

"Your medical preparation (Brown's Bronchial Troches) is certainly valuable to soldiers in the field, and I feel satisfied, if generally adopted at the hospitals, many sleepless nights of the weary soldier would be averted. Our regiment are now testing their qualities, and I believe are all satisfied of their good effects in alleviating those distressing affections of the throat arising from cold and exposure. They are now daily prescribed in our hospital and at the surgeon's morning call."

Sold everywhere at 35 Cents a Box.

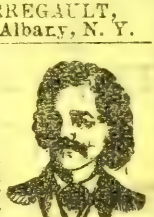
WONDERFULLY STRANGE!

MADAME M. H. PERREGAULT,

who has astonished the scientific classes of Paris and London, has now permanently located herself at Albany, N. Y. Madame Perregault, by the aid of her wonderful instrument known as the Horoscope, guarantees to produce a life-like picture of the future husband or wife of the patron, together with the date of marriage, leading traits of character, occupation, etc. This is no humbug, as thousands of testimonials can assert. She will send when desired, a written guarantee that the picture is what it purports to be. By stating age, height, complexion, color of eyes and hair, and enclosing 50 cents, and stamped envelope, addressed to yourself, you will receive the picture by return mail.

Address Madame M. H. PERREGAULT,
P. O. Drawer, 202, Albany, N. Y.

BEAUTY!



Auburn, Golden, Flaxen, and Silken Curls produced by the use of Prof. DE BREUX'S FRISER LE CHEVEUX One application warranted to curl the most straight and stubborn hair of either sex into wavy ringlet or massive heavy curls. Has been used by the fashionables of Paris and London with the most gratifying results. Does no injury to the hair. Price by mail, sealed and postpaid, $1. Descriptive circular sent free. Address Berger, Shults & Co., Chemists, P. O. Drawer 21, Troy, N. Y., sole agents for the United States.

TO BEAUTIFY THE COMPLEXION

Use "Shults' White Liquid Enamel." "The Enamel" will remove the worst cases of Tan, Freckles, Pimples, Moth Patches or Sunburn, in from four to six days. It whitens the skin permanently, and imparts a freshness and transparency to the complexion, which is perfectly natural and without injury to the skin. No toilet is complete without it Price by mail, sealed and post paid, 50 Cents.

To all Vermonters.

THE VERMONT RECORD is a publication thoroughly devoted to the Historical, the Educational, the Agricultural and the Industrical interests, and to the current News, of the entire State. It ignores politics and sectarianism. It pays cash for first class contributions pertaining to Vermont and Vermonters. The Record for 1866 will contain about twenty first class original Vermont Stories, illustrated with portraits of prominent Vermonters, cuts of public buildings, sketches of Vermont Scenery, etc., etc. A large list of prominent Vermonters are special contributors.

The Record has a special reporter in attendance at each and every prominent gathering in the State.

COSTIVENESS the most Prolific SOURCE OF ILL HEALTH.

DR. HARRISON'S
PERISTALTIC LOZENGES.

ENDORSED BY ALL THE MEDICAL JOURNALS AS THE MOST AGREEABLE, CONVENIENT, EFFECTIVE AND SURE REMEDY FOR

COSTIVENESS, DYSPEPSIA, PILES.

Pleasant to the palate, cause no pain, act promptly, never require increase of dose, do not exhaust, and for elderly persons, females and children, are just the thing. Two taken at night move the bowels once the next morning. Warranted in all cases of PILES and FALLING of the RECTUM. We promise a cure for all symptoms of Dyspepsia, such as Oppression after Eating, Sour Stomach, Spitting of Food, Palpitations; also Headache, Dizziness, Pain in the Back and Loins, Yellowness of the Skin and Eyes, Sick Headache, Coated Tongue, Biliousness, Liver Complaint, Loss of Appetite, Debility, Monthly Pains and all Irregularities, Neuralgia, Faintness, &c.

DYSPEPSIA.

The most common symptoms are a depressing dullness after eating, flatulence or balching up wind, sour stomach, heartburn, and spitting of food. One Lozenge eaten at any time instantly relieves the most distressing indigestion and restores the stomach to healthy action.

PILES.

This painful malady is sure to be removed by these Lozenges.—When there is a great deal of pain use Harrison's Pile Ointment also. In Bleeding Piles or Falling of the Rectum, two or three taken every day will in a reasonable time effectually cure the worst cases.

FEMALE IRREGULARITIES.

In Suppressions, Scantiness of the Secretions, especially in young persons, producing Headache, Flatulence, Lowness of Spirits, Hot Flushes, Dizziness, Paleness, Languor, Weak Back, General Debility, &c. These Lozenges are perfectly safe and we warrant them to effect a speedy cure. When there is great pain every month, use the Lozenges every day for a week before the return.

LIVER COMPLAINT.

This may be known by Pain in the Side, Coated Tongue, Costiveness, Yellow Skin and Eyes, Uneasiness, or Weariness of the Limbs. Use these Lozenges every night for ten days and you will prevent a fever.

SICK HEADACHE.

Dizziness, Weak Stomach, Biliousness, Palpitation, Neuralgia, Rheumatism, and all sorts of ill health, the result of costiveness, are at once cured by these Lozenges.

Price 60 cents per box; small boxes 30 cents.

For sale by J. S. HARRISON & CO., Proprietors, No. 1 Tremont Temple, Boston, and by all Druggists.

Will be mailed to any address on enclosing 60 cents.

FRICTION MATCHES,

Nos. 92, 94, 96, 98, 100 and 102 Friend Street,

BOSTON,

The Manufacture of these Matches was Commenced in 1835.

The quality of these Matches has now been tested for thirty years in every climate, and has withstood the damp and humid atmosphere, where all others have failed. House-keepers always give these Matches the preference. Shippers and Sea Captains express themselves after years of trial in one manner concerning their superiority over all others for exportation.

*** Parlor, Card, Block, Wood and Paper-box Matches always on hand and packed at short notice for shipment.

SEASONABLE HINTS.

THE ROAD TO POOR FARMING.—Select such calves for stock as the butchers shun—beauties of runts, thin in the hams, and pot-bellied; but be sure and keep their blood thin by scanty herbage; animals are safest to breed from that havn't strength to herd.

Be cautious about manufacturing manure; it makes the fields look black and mournful about planting time; besides it is a deal of work to haul it.

TOBACCO POISONOUS TO CALVES.—A correspondent of the Maine Farmer states that a neighbor of his purchased a half pound of cheap tobacco, soaked it in cold water twelve hours, and put the water on his calves to kill the lice on them, and in less than half an hour all the calves died.

DESTROYING WASPS' NESTS.—Turpentine placed at the entrance of the nest is fatal to these insects. The best mode of applying it is to put the turpentine in a bottle (as much as will merely wet the sides is sufficient) and insert the mouth of the bottle in the hole leading to the nest, surrounding it with some earth. If applied late in the evening, every wasp will be dead next morning.

Excellent vinegar can be made without any cost at all, by simply putting your apple-peelings into a large stone jug and filling the jug up with water. After letting it quietly stand in some moderately warm place four or five weeks (always putting in the apple-peelings of every day) you will find that you have a good vinegar which does not cost you a cent.

Horses relish this, and it will keep their hair soft and fine. It will prevent bots, colic, etc. A little ground sulphur mixed with salt and ashes, and given once in two or three weeks, is also beneficial. All domestic animals will be thus benefited. A solution of sal-ammoniac and water is one of the best, safest and surest remedies for snake, spider, mad dog, and other poisonous bite or sting. Alum or vinegar is good to set colors of red, green or yellow.

Agricultural implements are now a necessity to supply the lack of laborers. Look for the best and order this month. Of late years the manufacturers have been behind their orders. If you have not done it already, make a big broad box without a bottom, place it in a sunny position on good soil, put on a heavy coat of warm manure, cover lightly with loam, and put in cauliflower, early cabbage, and melon seeds for an early start. Cover with a window frame, or cotton cloth, and open to the air on warm sunny days. This is a cheap but useful hot bed.

DRILL FOR VOLUNTEERS.—Fall in! Attention. Right face! Quick March! Halt! Right About Face! Present Arms! Order arms! Rest! Fall out!

To good ways and habits.

Mind your own business.
Manfully do your duty, and keep sober.
From a temptation to do anything which is unmanly.
When conscience tells you that you are not doing as you would like others to do to you.
From dishonesty and falsehood.
Cheerfully when your wife asks you to hold the baby for an hour.
An old maid is like an old boot—of no use without a fellow.

Don't run about and tell acquaintances that you have been unfortunate. People do not like to have unfortunate acquaintances. Add to vigorous determination a cheerful spirit—if reverses come, bear them like a philosopher, and get rid of them as soon as you can. Poverty is like a panther—look it earnestly in the face and it will turn from you.

Provided, That the stamp duty placed thereon shall be the highest rate required for said instruments, or either of them.

Receipts by express companies for the delivery of any property for transportation are exempt from stamp duty.

Penalties.—Penalty for making, signing, or issuing any instrument, or paper of any kind whatsoever, or shall accept, negotiate, or pay, or cause to be accepted, negotiated, or paid, any bill of exchange, draft or order, or promissory note, for the payment of money, without the same being duly stamped, for denoting the duty hereby imposed thereon, $50; and the instrument shall be deemed invalid and of no effect; or counterfeiting stamps or dies, $1000, and imprisonment to hard labor not exceeding five years. For making, signing, issuing, accepting, or paying any bill of exchange, draft, order, or note, without stamp, $200. For selling proprietary cosmetics, matches, medicines, fish, fruits, sauces, jelies, &c., out proper stamps, $50.

General Remarks.—Instruments are not to be recorded unless properly stamped and cancelled.

No instrument is invalid for the want of the particular kind of stamps designated, provided a legal stamp of equal amount (except proprietary stamps), is duly affixed.

All official instruments, Documents, and papers issued or used by officers of the United States government, or by the officers of any State, county or other municipal corporation, are exempt.

In cases where an adhesive stamp shall be used for denoting any duty imposed by this act, the person using or affixing the same, shall write thereon the initials of his name, and date upon which the same shall be attached or used, so that the same may not again be used, under a penalty of $50.

Postage stamps cannot be used as revenue stamps.

No deed, instrument, document, writing, or paper, required by law to be stamped, which has been signed or issued without being duly stamped, or with a deficient stamp, nor any copy thereof, shall be recorded or admitted, or used as evidence in any court, until a legal stamp or stamps, denoting the amount of tax, shall have been affixed thereto as prescribed by law.

The party to whom a document is issued from a foreign country, or by whom it is to be used, shall, before using the same, affix thereon the stamp or stamps indicating the duty required.

Proprietors of cosmetics, medicines, or proprietary articles, may furnish private dies, and are allowed five per cent. on all purchases of $500; over $500, ten per cent.

THE VEGETABLE PULMONARY BALSAM!

Established by Lowe and Reed in 1826,
Containing neither Prussic Acid, Tartar Emetic, nor any Deleterious Drug,

Is the most Highly Approved Medicine

NOW IN GENERAL USE.

FOR COUGHS, COLDS,

CONSUMPTION, ASTHMA, PLEURISY, PHTHISIC, INFLUENZA, SPITTING OF BLOOD, HOARSENESS, WHOOPING COUGH, BRONCHITIS,
and all diseases of the Lungs and Chest.

REED, CUTLER & CO., DRUGGISTS,

PROPRIETORS,

Nos. 109, 111, & 113, Broad Street, Boston.

From Dea. Asa Wilbur, 29 Green Street, Boston.

Messrs. Reed, Cutler & Co.: Gentlemen—We have used as a family medicine the Vegetable Pulmonary Balsam for more than thirty years. I have given it in very many cases in this city and State, and in some of the other States. Could cite many instances of very gratifying relief from its use, and some, where, under God, it was the means of some very remarkable cures. I esteem it an invaluable medicine for pulmonary complaints, and cheerfully give my testimony accordingly, and if I can be the means of extending the use of the Balsam, and thus benefit my fellow-men, it will fully reward and highly gratify me.

Yours,

Dec. 2, 1863. (Signed) ASA WILBUR.

From the Boston Traveler, Dec. 14, 1863.

A FAVORITE LUNG AND THROAT REMEDY.—From long experience and personal knowledge, we take pleasure in calling attention to the advertisement under special notices, of the old standard remedy, "The Vegetable Pulmonary Balsam." It has now fully sustained an unprecedented reputation of nearly forty years, and its recommendations are of the strongest and most reliable character. An article which has achieved such signal success from its own merits, and won the favorable notice of the most distinguished among all classes, is surely entitled to the confidence of all who have occasion to use a remedy for pulmonary complaints.

Its proprietors are Messrs. Reed, Cutler & Co., the well known druggists of this city. They are above deception or quackery, and depend upon the acknowledged virtues of this preparation for its sale; and one great object of their advertisement is to caution the public against the many worthless medicines often palmed off under the pretext of being the same or something just as good.

If persons would use the same discrimination in buying this class of goods, where matters of life and death are involved that they do in affairs of minor importance, and judge more from the source and reputation of the originators, instead of being influenced by the flaming placards stuck all over the country, and thrust upon one from every corner of the streets, there would be much less prejudice against this class of medicines, some of which are of real worth, and among them the Vegetable Pulmonary Balsam in preminently one.

WISTAR'S BALSAM

—OF—

WILD CHERRY

HAS BEEN USED FOR NEARLY

HALF A CENTURY,

WITH THE MOST ASTONISHING SUCCESS IN CURING

Coughs, Colds, Hoarseness. Sore Throat, Influenza, Whooping Cough, Croup, Liver Complaint, Bronchitis, Difficulty of Breathing, Asthma and every affection of

THE THROAT, LUNGS and CHEST,

INCLUDING EVEN

CONSUMPTION.

The unequalled success that has attended the application of this medicine in all cases of

PULMONARY COMPLAINTS

has induced many physicians of high standing to employ it in their practice, some of whom advise us of the fact under their own signatures. We have space only for the names of a few of these:—

E. BOYDEN, M.D.....Exeter, Me.
ALEXANDER HATCH, M.D.....China, Me.
R. FELLOWS, M.D.....Hill, N. H.
W. H. WEBB, M.D.....Cape Vincent, N. Y.
W. B. LYNCH, M.D.....Auburn, N. Y.
SEYMOUR THATCHER, M.D.....Herman, N. Y.
ABRAHAM SKILMAN, M.D.....Bound Brook, N. J.
H. D. MARTIN, M.D.....Mansfield, Pa.

The proprietors have letters from all classes of our fellow citizens, from the halls of Congress to the humblest cottage, and even from beyond the seas; for the fame and virtues of WISTAR'S BALSAM have extended to the "uttermost bounds of the earth," without any attempt on our part to introduce it beyond the limits of our own country.

None genuine unless signed "I. BUTTS," on the wrapper.

PERUVIAN SYRUP,

—OR—

Protected Solution of Protoxide of Iron combined.

P. S.

This well-known Remedy has been used extensively and with great success for

DYSPEPSIA,

And the following forms of Disease, most of which originate in

A Bad State of the Blood:

Dropsy, Liver Complaint, Chronic Diarrhœa, Fever and Ague, Nervous Affections, Loss of Energy, Low Spirits, Scrofula, Female Complaints, Consumptive Tendencies, Skin Diseases, Boils, Scurvy, Loss of Constitutional Vigor, Disease of the Kidneys and Bladder,

And all Complaints accompanied by General Debility, and requiring

A Tonic and Alterative Medicine.

THE REASON WHY

the PERUVIAN SYRUP has been so successful in curing so many different Diseases is, that IT SUPPLIES THE BLOOD WITH ITS VITAL PRINCIPLE, OR,

LIFE ELEMENT, IRON,

thereby infusing STRENGTH, VIGOR and NEW LIFE into the diseased and debilitated system.

The proofs of the efficacy of this Remedy, in THOUSANDS OF CASES, where ordinary medicines have failed to give relief, are so well established, that invalids cannot reasonably hesitate to give it a trial.

Cures Cuts, Burns, Scalds, Wounds, Bruises, Sprains, Erysipelas, Salt Rheum, Boils, Ring Worms, Chapped Hands, Felons, Chillblains, Frozen Limbs, Corns, Piles, &c., &c.

GRACE'S CELEBRATED SALVE

Is prompt in action, removes pains at once, and reduces the most angry-looking swellings and inflammations, as if by magic, thus affording relief and a complete cure.

From the New Hampshire Gazette.

☞ Thanks to Mr. Grace, the Salve man, for a box of his ointment, which we were fortunate enough to have at *hand* the other night, when we run a bodkin (a printers tool, not the ladies' ivory—and a weapon "mightier than the pen") under our left thumb,—which thumb 'left' its previous position pretty quickly, we believe; for although the awl went under to the roots of the nail, and we anticipated all sorts of trouble with the wounded member, yet one "doing up" in Grace's Salve took out about all the soreness in twelve hours, and we have hardly thought of it since next morning—till happening to think that we owed Mr. G. thanks for his graciousness to us. We believe in his Salve, we do, now, and recommend all to "go and do likewise"—except pricking their thumbs.

ONLY 25 CENTS A BOX!

POLAND'S

White-Pine Compound!

After given it a thorongh trial, we can confidently commend Poland's White-Pine Compound as a very valuable article for the cure of colds, coughs, and pulmonic complaints generally. In several cases we have known it to give prompt relief when all other medicines which had been tried had failed. It is an article which, in a climate so promotive of sudden and severe colds as is that of New England, ought to be in every family, and we are sure that those who once obtain it and give it a fair trial will not thereafter be willing to be without it.—*Boston Journal, Jan.* 20, 1866.

THE GREAT NEW ENGLAND REMEDY.

DR. J. W. POLAND'S

WHITE-PINE COMPOUND

Is now offered to the afflicted throughout the country, after having been proved by a test of eleven years in the New England States, where its merits have become as well known as the tree from which, in part, it derives its virtues.

THE WHITE-PINE COMPOUND

Cures Sore Throat, Colds, Coughs, Diphtheria, Bronchitis, Spitting of Blood, and Pulmonary Affections generally. It is a Remarkable Remedy for Kidney Complaints, Diabetes, Difficulty of Voiding Urine, Bleeding from the Kidneys and Bladder, Gravel, and other Complaints. For Piles and Scurvy it will be found very valuable.

Give it a trial if you would learn the value of a good and tried medicine. It is pleasant, safe, and sure. Sold by Druggists and Dealers in medicines generally.

STATUTE RULE FOR RECKONING INTEREST.

An Act in addition to chapter 79 of the General Statutes, entitled "of money of account and interest."

It is hereby enacted, &c.

SEC. 1. The rate of interest, or the sum allowed for the forbearance or use of money, shall be six dollars for one hundred dollars one year, and the same rate for a greater or less sum and for a longer or shorter time; and no higher rate shall at any time be allowed.

SEC. 2. On all notes, bills, or other similar obligations, whether made payable on demand or at a specified time, with interest, where payments are made, such payments shall be applied, first, to liquidate the interest that has accrued at the time of such payments; and, secondly, to the extinguishment of the principal.

SEC. 3. On all notes, bills or other similar obligations, whether made payable on demand or at a specified time, with interest annually, the annual interest that remains unpaid shall be subject to simple interest, from the time they [it] became due to the time of final settlement; but if in any year, reckoning from the time such annual interest began to accrue, payments have been made, the amount of such payments at the end of such year, with the interest thereon from the time of payment, shall be applied, first, to liquidate the simple interest that has accrued from the unpaid annual interests; secondly, liquidate the annual interests that have become due, and thirdly, to the extinguishment of the principal.

SEC. 4. Nothing in this act shall be so construed as to affect any existing laws relating to banks and banking institutions, nor to notes and contracts existing before the passage of this act.

SEC. 5. This act shall take effect from its passage.

Approved, Nov. 19, 1856.

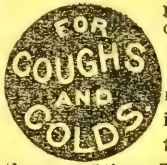
THE NE PLUS ULTRA.

THE PEOPLE'S CHOICE.



A COUGH, COLD,

—OR AN—

IRRITATED THROAT,

If allowed to progress, results in serious Pulmonary and Bronchial Affections, oftentimes incurable.

BROWN'S BRONCHIAL TROCHES reach directly the affected parts and give almost instant relief. In Bronchitis, Asthma, and Catarrh they are beneficial. The good effect resulting from the use of these Troches, and their extended use, has caused them to be counterfeited. Be sure to guard against worthless imitations. OBTAIN only the *genuine Brown's Bronchial Troches*, which have proved their efficacy by a test of many years. PUBLIC SPEAKERS and SINGERS should use the Troches. They are invaluable for allaying the hoarseness and irritation incident to vocal exertion, clearing and strengthening the voice. Military Officers and Soldiers, who overtax the voice, and are exposed to sudden changes, should have them.

From the Medical Director of the General Hospital, Benton Barracks, near St. Louis, March 8, 1862.

Messrs JOHN I. BROWN & SON, BOSTON, MASS. "Use of your far-famed and most servicable '*Troches*' is being made in the hospital of which I have charge, and with very beneficial and decided results in allaying bronchial irritation and morbid sensitiveness of mucous membrane of glottis and parts adjacent."

From R. B. Heintzleman, Steward 72nd Reg't., P. V.

"Your medical preparation (Brown's Bronchial Troches) is certainly valuable to soldiers in the field, and I feel satisfied, if generally adopted at the hospitals, many sleepless night of the weary soldier would be averted. Our regiment is now testing the qualities, and I believe are all satisfied of their good effects in alleviating those distressing affections of the throat arising from cold and exposure. They are now daily prescribed in our hospital and at the surgeon's morning call."

Sold everywhere at 35 Cents a Box.

THE GREAT

INDIAN MEDICINE,

Cures all diseases caused by self-abuse, viz:—*Spermatorrhea, Seminal - Weakness, Night-Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Insanity, Consumption*, and all diseases that follow as a sequence of youthful indiscretions.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

DR. W. R. MERWIN, 6 WALKER ST., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz:—*Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhea, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus or Whites in Females*. The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

PRICE.—Remedy, One Bottle, $2, Three Bottles, $5. Injection, One Bottle, $2, Three Bottles, $5.

The Cherokee "*Cure*," "*Remedy*" and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived*. If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us *in perfect confidence*. We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor, DR. W. R. MERWIN, 6 WALKER ST., N. Y.

CHEROKEE PILLS,

OR FEMALE REGULATOR.

Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick Headache, Giddiness*, and all diseases that spring from irregularity, by removing the cause and all the effects that arise from it. They are perfectly safe in all cases, *except when forbidden by directions*, and are easy to administer, as they are nicely *sugar coated*. They should be in the hands of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which they are subject. Thirty-two page pamphlet, in a sealed envelope, free.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor, DR. W. R. MERWIN, 6 WALKER STREET, NEW YORK.

N. B.—Cherokee Pills No. 2 are prepared for *special cases*, when milder medicines fail; these are sent by mail, free of postage on receipt of $5, *the price of each box*.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR, ESSENCE OF LIFE,

"As the Phenix rises from the ashes of its pyre, animated with new life"—so does this Elixir rejuvenate the system and overcome disease.

Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous diseases*. It restores new life and vigor to the aged, causing the hot blood of youth to course the veins, restoring the *Organs of Generation, removing Impotency and Debility, restoring Manliness and full vigor*, thus proving a perfect "*Elixir of Love*," removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitied to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

Price, one bottle $2; three bottles $5, sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggists does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

NOTES BY THE PUBLISHERS.

Departing a little from the custom of former years, the Publishers of this well known annual desire to say to their Patrons and Readers, throughout the State, that they have made an arrangement with the former proprietor, Mr. S. M. Walton, of Montpelier, by which he has relinquished to them all his right, title and interest in it, and they are to be its future proprietors and publishers. It is not expected to be a temporary arrangement, nor to depend at all upon the merits of the work in the past, but upon its own intrinsic worth in the future for its permanence. Mr. E. P. Walton has consented to remain its editor and Mr. Doton has furnished the Astronomical calculations, and both have fulfilled their duties satisfactorily to the Publishers, and, they trust, also, to the purchasers. It is expected they will continue their connection, but, as has been said, in any event the Publishers have determined that the real value of the future issues in respect of giving full, reliable information in all interesting matters pertaining to the State shall not be diminished. To this end they will be aided by a large corps of interested contributors.

And, in this connection they beg leave to suggest that there is not a man in Vermont who is not interested in the publication of a good Register of his state, and therefore there is no one from whom the Publishers would not be glad to receive notice of any errors which may at any time be found in the work—and more especially would they invite Town Clerks, and other Town Officers and prominent men, to examine carefully the statistical and other important matters, and make notes of even the slightest inaccuracy, and send their notes in before the first of July in each succeeding year, so that errors may not be repeated. It is desirable also that the [illegible]

correctly printed, and in this matter none are more interested than business men themselves.

The Publishers of Walton's Vermont Register have also become the publishers of Atwater's Vermont Directory.

The knowledge of this fact has led some to suppose that the two are to be merged in one. That does not necessarily follow. Both are published this year. Both will be published as long as there is a demand for them. The former competition between the two publishers is done away with of course. The effect which that competition had in putting down the prices of each, still remains to the benefit of the Purchaser. The price is not raised, and the publishers ask the people of the State to patronize, whichever they please, but one of them to an extent which will enable them to reap a satisfactory profit without raising the price.

The advertisements which they contain should add to the value of them. They point out who are the wide awake business men, and they are the ones with whom every one likes to deal—and but for the advertisements—even with the largest possible circulation—the price at which the Register is sold would not be remunerative.

The delay in the issue of the present number could not be avoided but will not be repeated. The publishers are no strangers to the business men of any section of the State. Their relations with them have been of the most satisfactory character, and they trust that this new enterprise of theirs may be the means of keeping up old acquaintances and forming many new ones. Their advertisement may be found among the other advertisers in the appropriate pages. And now, with thanks to their advertising friends and best wishes for the permanent prosperity of every purchaser of the Register, the

Eclipses.

In the year 1868 there will be two Eclipses of the Sun, and a Transit of Mercury.

I. An annular Eclipse of the Sun, February 23d, invisible in Vermont. Meantime of ☉ in Right Ascension, 9h 33m morning. The Eclipse will be visible from the greater part of South America; from Yucatan, Central America, and the West India Islands; also from the greater part of Africa, and the southern part of Europe.

II. A total Eclipse of the Sun, August 17th and 18th, invisible in Vermont. Meantime of ☉ in Right Ascension, August 18th, 0h 23m morning. This Eclipse will be visible from the eastern part of Africa, the southern part of Asia, from the Indian ocean and Australia.

There will be a Transit of Mercury over the Sun's disc, Nov. 5th. Meantime of ☉ in Right Ascension, 1h 22m morning. The times of the different phases will be as follows:

First contact with the Sun's disc,	Nov. 5th,	0h 34m	morning.
Least distance of centers, 12′ 15″	" "	2h 24m	"
Last contact with the Sun's disc,	" "	4h 13m	"

Consequently the Transit will be invisible in Vermont.

SEASONABLE HINTS.

APRIL derived its name from the latin word *aperio*—to open,—and was no doubt bestowed in allusion to the season.

Cranberry wine taken internally and applied externally is announced as a cure for scrofula. The wine may be made by mashing the ripe berries in a mortar to a fine pulp, put into a stone jar, add one quart of water to two quarts of berries, stir well, let it stand a week, then strain it through cotton, add a little sugar, and you have a most wholesome, cooling and palatable drink. It does not ferment.

POST-OFFICE REGULATIONS. 1868.

LETTERS.—The maximum standard weight for the single rate of letter postage is one half oz. avoirdupois. The rate of postage on all domestic letters not exceeding one half oz. shall be uniform at three cents; and for each half oz., or fraction thereof, of additional weight, an additional rate of three cents, to be in all cases prepaid by postage stamps. DROP or LOCAL LETTERS, two cents per half oz., prepaid by stamps: and no further

fee can be charged for delivery, or for taking from street boxes to the mails. IRREGULAR MATTER.—Letter rates are to be charged on irregular matter, part writing and part print, except that publishers may send and receive proof-sheets, and advise patrons, by writing on papers, when their subscription is up, at printed matter rates. On unclassified matter where no specific rate is set down, letter postage is charged. SOLDIERS' AND SAILORS' LETTERS are exempt from this extra charge, and may go unpaid if franked. Returned DEAD LETTERS, free. Foreign dead letters subject to conventional stipulations with the respective governments. Letters not finding owners at the office named, must be forwarded, when the place is known, free. The Postmaster-General may pay not more than two cents for carrying letters in vessels not carrying mails, such letters to be put in post-office on arrival in port; if for local delivery, another two cents should be affixed. No fees are allowed for letters collected by a carrier on a mail route.

NEWSPAPERS, MAGAZINES, &c.—Newspaper, or second class postage, is, for papers not over four ounces each, per quarter, once a week, 5 cents; twice, 10 cts.; three times, 15 cts.; six times, 30 cts.; seven times, 35 cts, and so on, adding one rate for each issue more than once per week, to be prepaired for not less than three months nor more than a year, at the office of reception. Publishers of weekly newspapers may send within their county free. On magazines issued less often than once a week, one cent for four ounces to regular subscribers. Special bargains may be made by the Postmaster-General for transporting packages of newspapers &c. Publishers must be notified when papers are not taken out for one month, which notice may be sent free. BILLS AND RECEIPTS for subscriptions may be enclosed in papers and go free; any other written enclosure imposes letter postage. Publishers may exchange papers free, not exceeding sixteen ounces in weight.

BOOKS—Not over 4 oz. in weight, 4 cts.; between 4 and 8 oz., 8 cts.; between 8 and 12 oz., 12 cts. &c.

MISCELLANEOUS—Including pamphlets, occasional publications, transient newspapers, handbills and posters, book manuscripts and proof-sheets, whether corrected or not, maps, prints, engravings, sheet music, blanks, flexible patterns, flexible samples and sample cards, phonographic paper, letter envelopes, postal envelopes or wrappers, cards, paper, plain or ornamental, photographs, seeds, cuttings, bulbs, roots, and scions, not over 4 oz. in weight, 2 cts.; over 4 oz., and not over 8 oz., 4 cts.; over 8 oz., and not over 12 oz., 6 cts.; over 12 oz., and not over 16 oz., 8 cts. All matter not above specified is charged at letter postage; all classes, except as above mentioned, must be prepaid.

MONEY ORDERS—For any amount not exceeding $50 on one order, are issued in the principal offices, on payment of the following fees; Orders not exceeding $20, 10 cts.; over $20, and not exceeding $50, 25 cts. This system is becoming popular with many who preferred the registry system.

FRANKING.—Franking is restricted to the president, his private secretary, the vice-president, heads of executive departments, heads of bureaus and chief clerks to be designated by the Postmaster-General, senators and representatives, secretary of senate and clerk of house—but this only to cover matter sent to them, and that despatched in the way of business, except documents issued by Congress. DOCUMENTS from officers to their several departments, marked official, also go free; also PETITIONS to Congress. The weight of franked matter must not exceed four ounces per package, save Congress books, &c.

FOREIGN LETTERS (except to England and Ireland, to either of which the postage is 12 cts., prepayment optional) should indicate on the outside the route by which they are to be sent, as the difference by various routes is great. Thus, to Austria, and any of the German States, via "Prussian closed mail," 30 cts., prepayment optional; if prepaid, 28 cts.; via "Bremen or Hamburg," 15 cts., prepayment optional; via "French

mail," not exceeding ¼ oz., 21 cts.; not exceeding ½ oz., 42 cts. To the CANADAS, 10 cts., prepayment optional. To SWITZERLAND, via "Prussian closed mail," if prepaid, 33 cts.; if not 35; via "French mail," not exceeding ¼ oz., 21 cts.; not exceeding ½ oz., 42 cts., prepayment optional; via "Bremen or Hamburg mail," 19 cts. prepayment optional. To FRANCE, not exceeding ¼ oz., 15 cts.; not exceeding ½ oz., 30 cts., prepayment optional.

Sales, or contracts for sale of stocks, bonds, foreign exchange, gold and silver bullion, and coin, promissory notes and other securities, when made by brokers, banks, or bankers who pay a special tax, require stamps equal to one cent on every $100; if there is a fraction over $100, the same to be stamped at the full rate of $100; when made by a person, firm, or corporation not paying special tax, for every $100 of value, 05. A memorandum of sale or contract must be made by the seller to the buyer, upon the sale or contract being made, and the stamp affixed thereto.

Exemptions.—No stamp duty shall be required on *powers of attorney* or any other paper relating to *application for bounties, arrearages or pay, or pensions, or the receipt thereof from time to time;* or upon tickets or contracts of insurance when limited to injury to persons while traveling; nor on certificates of the measurement or weight of animals wood, coal, or hay; nor on deposit notes to mutual insurance companies, for the insurance upon which, policies subject to stamp duties have been or are to be issued nor on any *warrant of attorney* accompanying *a bond or note* when such bond or note shall have affixed thereto the stamp or stamps denoting the duty required; and whenever any bond or note shall be secured by a mortgage, but one stamp duty shall be required to be placed on such papers; nor on any certificate of the record of a deed or other instrument in writing, or of the acknowledgment or proof thereof by attesting witnesses; nor to any endorsement of a negotiable instrument.

Provided, That the stamp duty placed thereon shall be the highest rate required for said instruments, or either of them.

Receipts by express companies for the delivery of any property for transportation are exempt from stamp duty.

Penalties.—Penalty for making, signing, or issuing any instrument, or paper of any kind whatsoever, or shall accept, negotiate, or pay, or cause to be accepted, negociated, or paid, any bill of exchange, draft or order, or promissory note, for the payment of money, without the same being duly stamped, for denoting the duty hereby imposed thereon, $50; and the instrument shall be deemed invalid and of no effect; or counterfeiting stamps or dies, $1000, and imprisonment to hard labor, not exceeding five years. For making, signing, issuing, accepting, or paying any bill of exchange, draft, order, or note, without stamp, $200. For selling proprietary cosmetics, matches, medicines, fish, fruits, sauces, jellies, &c., without proper stamps, $50.

General Remarks.—Instruments are not to be recorded unless properly stamped and cancelled.

No instrument is invalid for the want of the particular kind of stamps designated, provided a legal stamp of equal amount (except proprietary stamps), is duly affixed.

All official instruments, documents; and papers issued or used by officers of the United States government, or by the officers of any State, county or other municipal corporation are exempt.

In cases where an adhesive stamp shall be used for denoting any duty imposed by this act, the person using or affixing the same, shall write thereon the initials of his name and date upon which the same shall be attached or used, so that the same may not again be used, under a penalty of $50.

Postage stamps cannot be used as revenue stamps.

No deed, instrument, document, writing, or paper, required by law to be stamped, which has been signed or issued without being duty stamped, or with a deficient stamp, nor any copy thereof shall be recorded or admitted, or used as evidence in any court, until a legal stamp or stamps, denoting the amount of tax, shall have been affixed thereto as prescribed by law.

The party to whom a document is issued from a foreign country, or by whom it is to be used, shall, before using the same, affix thereon the stamp or stamps indicating the duty required.

AN INVALUABLE MEDICINE FOR THE PURIFYING OF THE BLOOD.

DR. J. W. POLAND'S

HUMOR DOCTOR!

A Positive Remedy for all kinds of Humors,

PARTICULARLY

Erysipelas, Nettle Rash, Salt Rheum, Scrofula, Carbuncles, Boils, and Piles.

THIS excellent medicinal compound was first prepared by DR. J. W. POLAND, in 1847, and was then employed with great success in expelling Humors from the blood; but in 1848 a medical friend, who was quite celebrated as a physician, especially in the treatment of humors, suggested some important improvements, which were adopted and which has made it (so the people say) the very best remedy for all kinds of humors known to "the faculty."

The HUMOR DOCTOR cures Scrofula, Salt Rheum, Erysipelas, Canker, Piles, Nettle Rash, &c. Numerous individuals, who have used this remedy for Erysipelas, give it the most flattering recommendations.

This preparation is composed entirely of vegetables, among which are Sarsaparilla, Yellow Dock, Noble Pine, Mandrake and Bloodroot.

When the originator lived in New Hampshire, at Goffstown Centre, for the space of thirty or forty miles around, and in Manchester particularly, the Humor Doctor was well known and highly valued for the numerous and wonderful cures which it effected. Though manufactured in large quantities the supply was frequently exhausted, and purchasers had to wait for more to be made. In that region some very severe cases of Erysipelas were treated with,—and they were cured! Erysipelas sores, or carbuncles,—those ugly, painful ulcers,—were entirely removed wherever this medicine was faithfully used. So it was with Scrofula and Salt Rheum. The Humor Doctor cured them.

Within the last ten years this valuable remedy has so increased in popularity that now it is more largely used all over New England than any other one preparation for cleansing the blood, and restoring the system to its healthy condition. Throughout the Western States it is now meeting with great success wherever it has been introduced. It is *free* from any dangerous drugs, is pleasant to the taste, safe, yet sure and effective in its action.

HISTORY OF THE STATE.

Vermont was first settled by some emigrants from Massachusetts, at Fort Dummer, now Brattleboro', in 1724. It was long claimed both by New York and New Hampshire, and did not become an independent State until the breaking out of the war of the Revolution, nor was her independence as a State acknowledged by New York until March 4, 1791.

Vermont was the first new member of the American confederacy added to the original thirteen.

The State derives its name from the French, Verts Monts or Green Mountains.

It lies between the latitudes of about 42° 44' and 45°, and has a length from north to south of 157½ miles, while its greatest breadth from east to west is only 85 miles, and its least about 35.

Heights of some of the peaks of Vermont: Ascutney, 3320 feet; Killington, 3675 feet; Camel's Rump, 4188 feet; the "Nose" and "Chin" in Mansfield Mountain a few feet higher than Camel's Rump, 4359 feet.

The geographical center of the State is in the town of Northfield. The area is 9,056¼ square miles.

STATUTE RULE FOR RECKONING INTEREST.

An Act in addition to chapter 79 of the General Statutes, entitled "of money of account and interest."

It is hereby enacted, &c.

SEC. 1. The rate of interest, or the sum allowed for the forbearance or use of money, shall be six dollars for one hundred dollars one year, and the same rate for a greater or less sum and for a longer or shorter time; and no higher rate shall at any time be allowed.

SEC. 2. On all notes, bills, or other similar obligations, whether made payable on demand or at a specified time, with interest, where payments are made, such payments shall be applied, first, to liquidate the interest that has accrued at the time of such payments; and, secondly, to the extinguishment of the principal.

SEC 3. On all notes, bills or other similar obligations, whether made payable on demand or at a specified time, with interest annually, the annual interest that remains unpaid shall be subject to simple interest, from the time they [it] became due to the time of final settlement; but if in any year, reckoning from the time such annual interest began to accrue, payments have been made, the amount of such payments at the end of such year, with the interest thereon from the time of payment, shall be applied, first to liquidate the simple interest that has accrued from the unpaid annual interests; secondly, liquidate the annual interests that have become due, and thirdly, to the extinguishment of the principal.

SEC. 4. Nothing in this act shall be so construed as to affect any existing laws relating to banks and banking institutions, nor to notes and contracts existing before the passage of this act.

SEC. 5. This act shall take effect from its passage.

Approved, Nov. 19, 1856.

THE CLAREMONT MANUFACTURING CO.'S machinery is all driven by *TYLER'S CELEBRATED TURBINE WATER WHEELS, which require so little water, and are withal so much superior to any other wheel that their business suffers but little interruption from low water, enabling them at any time to fill orders for Printing Paper promptly. Orders from newspaper and other publishers are respectfully solicited.

DR. WISTAR'S BALSAM
OF
WILD CHERRY,
IS ONE OF THE OLDEST AND
Most Reliable Remedies in the World,
—FOR—
COUGHS, COLDS, WHOOPING COUGH, CROUP, HOARSENESS, INFLUENZA, ASTHMA, DIFFICULTY OF BREATHING, BRONCHITIS, SORE THROAT, CONSUMPTION,
AND EVERY AFFECTION OF
THE THROAT, LUNGS AND CHEST.

UNSOLICITED TESTIMONY.

Received from HON. W. H. JONES, of Vermont.

CHESTERFIELD, N. H., March 26, 1867.

MESSRS. SETH W. FOWLE & SON:

GENTLEMEN: —I feel in duty called upon *voluntarily* to give my testimony in favor of DR. WISTAR'S BALSAM OF WILD CHERRY. I was taken sick last October with a lung complaint, accompanied with a very serious cough, and after having been treated a number of weeks by the best physicians they gave me over as an incurable case of CONSUMPTION, and for about six weeks my friends expected that I might die any day, having entirely despaired of my recovery. At this time I read the advertisements and certificates of the WILD CHERRY BALSAM, and was induced to try it myself. I have taken five bottles, and from the commencement I have been gradually recovering. My cough has now entirely ceased. I have regained my flesh and strength, and am feeling quite well. I attribute the cure to DR. WISTAR'S BALSAM OF WILD CHERRY; as I have taken no other medicine since I commenced taking that.

Very respectfully yours,
(Signed) MRS. MILA S. SMITH.

MESSRS. FOWLE & SON;

GENTLEMEN—Mrs. Smith gives me the foregoing certificate of the efficacy of your medicine in her case. She is an acquaintance of mine and took the Balsam on the strength of my certificate which she was in the papers. *Her story is literally true.* Yours truly.
(Signed) W. H. JONES.

THE PERUVIAN SYRUP!

IS A PROTECTED SOLUTION OF THE PROTOXIDE OF IRON.

A new Discovery in Medicine, which

STRIKES AT THE ROOT OF DISEASE,

By supplying the blood with its vital principle, or life element—IRON.

This is the secret of the wonderful success of this remedy in curing

Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a

Bad State of the Blood,

Or accompanied by Debility or a low state of the system.

AN EMINENT DIVINE OF BOSTON SAYS:

"I have been using the PERUVIAN SYRUP for some time past; it gives me new vigor, buoyancy of spirits, elasticity of muscle."

Thousands have been changed by the use of this remedy from weak, sickly, suffering creatures, to strong, healthy and happy men and women, and invalids cannot reasonably hesitate to give it a trial.

A pamphlet of 32 pages, containing certificates of cures and recommendations from some of the most eminent physicians, clergymen and others, besides much other valuable and interesting matter, will be sent free to any one sending us their name and residence.

☞ See that each bottle has "PERUVIAN SYRUP" blown in the glass.

GRACE'S CELEBRATED SALVE

Is prompt in action, removes pain at once, and reduces the most angry looking swellings and inflamations, as if by magic—thus affording relief and a complete cure.

AMESBURY, OCT. 13th, 1863.

Mr. Grace—Dear Sir:—Having been afflicted grievously for several weeks with a severe abscess upon my side, I used several remedies for its eradication without receiving any relief until I applied your salve, which effected a speedy and permanent cure. I therefore feel happy to certify my confidence in its virtues. Yours with respect,

JAMES BEAN.

I certify to the truthfulness of the above statement.

SCROFULA.

Dr. H. Anders' Iodine Water.

Is a pure solution of Iodine, WITHOUT A SOLVENT!

Containing A FULL GRAIN to each ounce of water.

THE MOST POWERFUL VITALIZING AGENT AND RESTORATIVE KNOWN.

It *has* cured and *will* cure SCROFULA in all its forms,

ULCERS, CANCERS, SYPHILIS, SALT RHEUM, &c. &c.

The REV. GEO. STORRS of Brooklyn, N. Y., says, in the Bible Examiner, by way of apology for publishing a medical certificate in his Magazine, of the cure of his only son, of Scrofula, "after dissolution appeared inevitable." "We publish this statement, not for pay, but in gratitude to God who has thus answered prayer, and in justice to Dr. Anders; being satisfied that there is virtue in the Iodine Water treatment, which the readers of this Magazine will thank its Editor for bringing to their notice."

[*From the Boston Traveller, Dec.* 14, 1863.]

A Favorite Lung and Throat Remedy.—From long and personal knowledge, we take pleasue in calling attention to the old standard remedy, "The Vegetable Pulmonary Balsam." It has sustained an unprecedented reputation for nearly forty years. Its recommendations are of the most reliable character. An article which has achieved such signal success from its own merits, and won the favorable notice of the most distinguished among all classes, is surely entitled to confidence. The proprietors are Messrs. Reed, Cutler & Co., well-known druggists of this city. They are above deception or quackery, and depend upon the virtues of this preparation for its sale; and one great object of their advertising is to caution the public against the many worthless medicines often palmed off under the pretext of being the same, or something just as good. Sold everywhere.

AYER'S
Hair Vigor !

For the Renovation of the Hair.

THE GREAT DESIDERATUM OF THE AGE.

A dressing which is at once agreeable, healthy and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color and the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remains can be saved for usefunless by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but, not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

IMPORTANT TO TRAVELERS ON RAILROADS.

Owing to the amount of travel on our railroads, we have procured the railroad signals, which will be found interesting to those who travel on the cars or witness the movement of trains, and the men who operate the roads may desire to know signals as given by the whistle, by lanterns flags and motions of the arms.—The signification is:

One whistle—"Down brakes."

Two whistles—"Off brakes."

Three whistles—"Back up."

Continued whistle—"Danger."

A rapid succession of short whistles is the cattle alarm, at which brakes will always be put down.

A sweeping parting of the hands on the level of the eye is the signal to "go ahead."

A downward motion of one hand, with extended arms, "to stop."

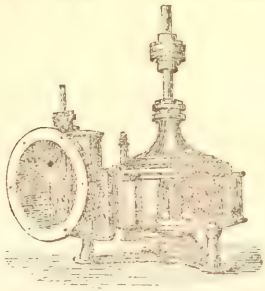
A beckoning motion of one hand, "to back."

A lantern raised and lowered vertically is a signal for "starting;" swung at right angles or crossing the track, for "stopping;" swung in a circle, "back the train."

A red flag waved upon the track must be regarded as a signal of danger. So with other signals given with energy. Hoisted at a station, is a signal for the train to stop; stuck up on the roadside is a signal of danger on the track ahead; carried unfurled upon the engine is a warning that another engine or train is on its way.

TYLER'S IMPROVED TURBINE
WATER WHEEL,

Patented in 1855. 1856, 1858 & 1861.



Tests of Tyler's Turbine Water Wheels.

Claremont, Nov. 11, 1862.

We the undersigned certify that on this day we witnessed tests of an 18 inch Tyler Water Wheel, of which the following table shows the result. Three tests were made with each different weight, and the result given is an average of the three:

No. of Test.	Time in Seconds.	Head of Water.	Distance Raised.	Weight Raised.	Amount of Water Disch'ged.	Size of Wheel.	Percent. of Power for Wa'r used
1	23	6 feet.	25 feet.	700 lbs.	.97	18 inches.	76.76
2	22	do.	do.	687 "	.94	do.	76.55
3	21	do.	do.	675 "	.90	do.	77.94
4	21	do.	do.	667 "	.88	do.	79.40
5	20	do.	do.	650 "	.82	do.	83.07
6	19½	do.	do.	637 "	.81	do.	82.77
7	19	do.	do.	625 "	.77	do.	85.03
8	19	do.	do.	612 "	.77	do.	83.26
9	18	do.	do.	600 "	.76	do.	82.23

Average percentage of power for the water used in the above nine tests, 80.89. Best result, 85.03.

The tests were made in the most careful manner, and we believe the measurement of water, head and fall, were as accurately made as could be done in any way. The water was measured in a box 8 feet square, marked off into hundredths of feet in hight. The weight was raised by a rope running on a pulley 30 inches in diameter, over head, upon a drum 11 inches in diameter, geared from the wheel. The weight was determined by an accurate platform scale, and was drawn twenty-five feet in each test. The Wheel tested is the same in every respect as those made for purchasers.

JONAS LIVINGSTON,
ARNOLD BRIGGS,
OTIS F. R. WAITE.

We the undersigned, practical Millwrights, certify that we assisted in making the above tests of the Tyler Water Wheel, and that the results as given are correct.

There are now more than twenty-seven hundred of the Tyler Turbine Water Wheels in operation in the United States.

Brown's Vermifuge Comfits,

Or Worm Lozenges. Much sickness, undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "Vermifuge Comfits," although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been succesfully used by physicians, and found to be safe and sure in eradicating worms, so hurtful to children.

Symptoms of Worms in Children are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making Brown's "Vermifuge Comfits" is such as to give the best possible effect with safety.

SEASONABLE HINTS.

Through the hushed air the whitening shower descends;
Earth's universal face, deep hid, and chill,
Is one wild dazzling waste.

Every one who can should lay in a year's stock of wood about these days. Try, for one year at least, the plan of cutting, splitting and piling in your shed immediately, before any snow or rain falls upon it.

All wisdom cometh from the Lord and is with him forever.

Hate not laborious work, neither husbandry, which the Most High hath ordained.

Do no evil, so shall no harm come unto thee.

1	5	5 41	6 27	12 47	0 3 48	4 45	4 5	mor	♐	This ought to be the busiest month in the year. Plow deep and manure well. Put up the fences that got "winter killed" and make them strong, unless you wish to teach your cattle to be "breachy." Get some early potatoes in as soon as you can. Don't "stint" the calves if you expect good cattle or meat. What do you think about a little top dressing on the meadows? Sow clover seed. Don't forget the early peas. Whatsoever your eye sees, or your hands find to do, do it with all your might, and in good time. The countenance is a sign of changing of the heart.

1	5	4	20	7	48	15	28	0	3 33	23	6	5	40	morn		♈	An unusual number of persons suffered from "sun stroke" last summer. A piece of wet brown paper worn in the hat of the person exposed to the sun is said to be a preventive. Do not neglect the calves and colts in this busy season. More hay is spoiled before it is cut than after. Try some early-cut hay one year, if you don't believe it makes any difference when it is cut. Notwithstanding you are very busy, it is a good time to prune fruit trees. The tongue, like a race horse, generally runs faster the less weight it carries.

Put your buildings in good repair before cold weather; and it is not a bad time to paint.

Select the finest ears of corn for seed and put it where the rats can not get it.

Give the cattle all the feed they will eat, if you wish to winter them cheaply.

Some ditching may be done this month if it has not been done before.

Whosoever discovereth secrets loseth his credit and shall never find a friend to his mind.

"But here the Autumn melancholy dwells,
And sighs her beautiful spells
Amongst the sunless shadows of the plain.
Alone, alone,
Upon a mossy stone
She sits and reckons up the dead and gone."
Aha! who says that? It may do for poetry, but farmers "can't see it" when barns are filled with plenty, and where presses are bursting with new cider.
A faithful friend is a strong defense.

If there are thirty millions of people in the United States, and two-fifths of them are men, or boys over twelve years of age, and three-fifths of the men and boys smoke or chew, using each ten cents worth of tobacco a day, and the National debt is the same as it was Nov. 1, 1867, (See page 112 of the Register for 1868) how long would it take to pay the debt if the money wasted on tobacco were saved for that purpose? and which is the greater curse—Tobacco or the National debt. Remember that death will not be long in coming.

CIVIL GOVERNMENT OF VERMONT.

A Convention, consisting of delegates elected by the freemen of the several towns, declared the Independence of Vermont, Jan. 15, 1777; and by a like convention, the first Convention was adopted, July 2, of the same year. The Constitution has remained without very material alterations, the chief being the substitution of a Senate of thirty members, apportioned to the several counties according to population, and chosen by a plurality of the freemen of the several counties, in lieu of a Council of twelve members chosen by a plurality of the votes of the State at large.

The frame of Government now provides for: I. The Executive, the chief officers of which are Governor, Lieutenant Governor, and Treasurer, all of whom are elected annually by the freemen of the State. II. A Senate of thirty members, elected as before mentioned. III. A House of Representatives, consisting of one member from each organized town, elected by the freemen thereof. IV. A judiciary, the officers of which are all elective, the Judges of the Supreme Court (who are also Chancellors,) by the Senate and House of Representatives, in joint assembly; the assistant Judges of County Courts, (a judge of the Supreme Court presides in each County Court,) Judges of Probate Courts, Sheriffs, State's Attorneys and High Bailiffs, by the freemen of the respective counties; and Justices of the Peace, by the freemen of the several towns.

The election for State purposes is in September, and a majority of all the votes cast is required to elect every officer, except Senators and other county officers, including in the latter justices of the peace elected by the several towns; but in March, the freemen of each town meet for the transaction of the public business of the town and the election of all town officers. embraced in the list under that head in this Register, and, also a much larger number of officers whose duties are of local interest only. Every term of civil office is limited to one year, or until others are elected, and all elections are therefore annual. The Governor's power of appointment is very limited, embracing ordinarily his Secretary and Military staff only; but he has power to fill any office created by law, where the appointment is not fixed by the constitution or a statrte, a case which has rarely occurred; and also to fill any vacancy, occurring by death or otherwise, until the office can be filled in the manner required by the constitution or laws. By a recent statute, the Governor may nominate, subject to approval by the Senate, six members of the Board of Education. The heads of the various State bureaus, except the Treasury, and Generals of Divisions and Brigades, are elected by the Senate and House in joint assembly—the former officers annually, and the Generals when vacancies occur.

His Excellency, JOHN B. PAGE, Rutland, Governor.

His Honor, STEPHEN THOMAS, West Fairlee, Lt. Governor.

HISTORY OF THE STATE.

Vermont was first settled by some emigrants from Massachusetts, at Fort Dummer, Now Brattleboro', in 1724. It was long claimed both by New York and New Hampshire, and did not become an independent State until the breaking out of the war of the Revolution, nor was her independence as a State acknowledged by New York until March 4, 1791. She was the first new member of the American confederacy added to the original thirteen. The State derives its name from the French, Verts Monts or Green Mountains. It lies between the latitudes of about 42° 44′ and 45°, and has a length from norih to south of 157½ milis, and its greatest bredth from east to west is only 85 miles, and its least about 35. Heights of some of the peaks of Vermont: Ascutney, 3320 feet: Killington, 3675 feet; Camel's Rump, 4188 feet; Mansfield Mountain, 4359 feet.

STATUTE RULE FOR RECKONING INTEREST.

An Act in addition to chapter 79 of the General Statutes, entitled "of money of account and interest."

It is hereby enacted, &c.

Sec. 1. The rate of interest, or the sum allowed for the forbearance or use of money, shall be six dollars for one hundred dollars one year, and the same rate for a greater or less sum and for a longer or shorter time; and no higher rate shall at any time be allowed.

Sec. 2. On all notes, bills, or other similar obligations, whether made payable on demand or at a specified time, with interest, where payments, are made, such payments shall be applied, first to liquidate the intsrest that has accrued at the time of such payments; and, secondly, to the extinguishment of the principal.

Sec. 3. On all notes, bills, or other similar obligations, whether made payable on demend or at a specified time, with interest annually, the annual interest that remains unpaid shall be subject to simple interest, from the time they [it] became due to the time of final settlement; but if in any year, reckoning from the time such annual interest began to accrue, payments have been made, the amount of such payments at the end of such year, with the interest thereon from the time of payment, shall be applied, first to liquidate the simple interest that has accrued from the unpaid annual interests; secondly, liquidate the annual interests that have become due, and thirdly, to the extinguishment of the principal.

Sec. 4. Nothing in this act shall be so construed as to affect any existing laws relating to banks and banking institutions, nor to notes and contracts existing before the passage of this act.

Sect. 5. This act shall take effect from its passage.

Approved, Nov. 19, 1856.

POST-OFFICE REGULATIONS. 1869.

LETTERS.—The maximum standard weight for the single rate of letter postage is one half oz. avoirdupois. The rate of postage on all domestic letters not exceeding one half oz. shall be uniform at three cents; and for each half oz., or fraction thereof, of additional weight, an additional rate of three cents, to be in all cases prepaid by postage stamps. DROP or LOCAL LETTERS, two cents per half oz., prepaid by stamps: and no further fee can be charged for delivery, or for taking from street boxes to the mails. IRREGULAR MATTER.—Letter rates are to be charged on irregular matter, part writing and part print, except that publishers may send and receive proof-sheets, and advise patrons, by writing on papers, when their subscription is up, at printed matter rates. On unclassified matter where no specific rate is set down, letter postage is charged. SOLDIERS' AND SAILORS' LETTERS are exempt from this extra charge, and may go unpaid if franked. Returned DEAD LETTERS, free. Foreign dead letters subject to conventional stipulations with the respective governments. Letters not finding owners at the office named, must be forwarded, when the place is known, free. The Postmaster-General may pay not more than two cents for carrying letters in vessels not carrying mails, such letters to be put in post-office on arrival in port; if for local delivery, another two cents should be affixed. No fees are allowed for letters collected by a carrier on a mail route.

NEWSPAPERS, MAGAZINES, &c.—Newspaper, or second class postage, is, for papers not over four ounces each, per quarter, once a week, 5 cents; twice, 10 cts.; three times, 15 cts.; six times, 30 cts.; seven times, 35 cts, and so on, adding one rate for each issue more than once per week, to be prepaid for not less than three months nor more than a year, at the office of reception. Publishers of weekly newspapers may send within their county free. On magazines issued less often than once a week, one cent for four ounces to regular subscribers. Special bargains may be made by the Postmaster-General for transporting packages of newspapers &c. Publishers must be notified when papers are not taken out for one month, which notice may be sent free. BILLS AND RECEIPTS for subscriptions may be enclosed in papers and go free; any other written enclosure imposes letter postage. Publishers may exchange papers free, not exceeding sixteen ounces in weight. By act of Congress approved July 27, 1868, weekly newspapers, properly folded and addressed, when sent to regular subscribers, in the county where printed and published, are not subject to any charge when delivered by the office nearest the office of publication, but such papers, when delivered by letter carriers, are chargeable with postage at the rate of five cents per quarter, and such postage must be prepaid for a term of not less than one-quarter or more than a year.

BOOKS—Not over 4 oz. in weight, 4 cts.; between 4 and 8 oz., 8 cts.; between 8 and 12 oz., 12 cts. &c.

MISCELLANEOUS—Including pamphlets, occasional publications, transient newspapers, handbills and posters, book manuscripts and proof-sheets, whether corrected or not, maps, prints, engravings, sheet music, blanks, flexible patterns, flexible samples and sample cards, phonographic paper, letter envelopes, postal envelopes or wrappers, cards, paper, plain or ornamental, photographs, seeds, cuttings, bulbs, roots, and scions, not over 4 oz. in weight, 2 cts.; over 4 oz., and not over 8 oz., 4 cts.; over 8 oz., and not over 12 oz., 6 cts.; over 12 oz., and not over 16 oz., 8 cts. All matter not above specified is charged at letter postage; all classes, except as above mentioned, must be prepaid.

MONEY ORDERS—The fees or charges for money orders will be as follows - On orders not exceeding $20, 10 cts.; over $20, and not exceeding $30, 15 cts. Over $30, and not exceeding $40, 20 cts. Over $40, and not exceeding $50, 25 cts.

FRANKING.—Franking is restricted to the president, his private secretary, the vice-president, heads of executive departments, heads of bureaus and chief clerks to be designated by the Postmaster-General, senators and representatives, secretary of senate and clerk of house—but this only to cover matter sent to them, and that despatched in the way of business, except documents issued by Congress. DOCUMENTS from officers to their several departments, marked official, also go free; also PETITIONS to Congress. The weight of franked matter must not exceed four ounces per package, save Congress books, &c.

FOREIGN POSTAGE.—On letters to England or Ireland, 12 cents, prepayment optional; on newspapers 2 cents, prepaid. To Canadian provinces on letters 6 cents, prepayment optional, on newspapers 2 cents, prepaid For rates and routes to other foreign countries, inquire at your post office, as the rates by different routes to the same destination vary greatly.

FRENCH NEWSPAPER!

A PLEASANT AND EASY WAY

TO

LEARN FRENCH.

Ladies and Gentlemen, anxious to learn French, studying or knowing it already, will find in the reading of the

PROTECTEUR CANADIEN

the very best opportunity to acquire or retain a thorough knowledge of that language, without which the most accomplished scholars, professional men and travellers in European countries, find themselves sadly deficient. The dryness and the subsequent tediousness, inherent to the study of a foreign language in books, are removed from the student, who finds in the perusal of his French Journal, fresh, amusing and exciting news, which act on his mind and will as a continual incentive to study; he likes to read and consequently reads much and with profit. Moreover, as the editor has studied for many years in Paris, his language is not only pure, but his paper is replete with many French BONS MOTS, mostly taken from the Parisian Press.

The "Protecteur Canadien" is published every Thursday at St. Albans, Vermont. Terms, payable in advance, $2.50 a year or $1.50 for six months.

☞ THE BOSTON POST, the BOSTON STATESMAN AND WEEKLY POST, and the SEMI-WEEKLY PRESS AND POST will be Democratic henceforth as they have been democratic for nearly forty years. They will seek to promote the political welfare of the whole country, to secure a re-union of the States, to give to every State its Constitutional rights, to lessen the burdens of taxation, and to uphold the Constitution as transmitted by our Fathers, and not as interpreted by partisans whose aims are selfish and prejudicial to National Prosperity. Political Events will be fully recorded as they may transpire, and in order to furnish a complete record as well as all other news,

Foreign, Miscellaneous, Literary, Commercial, &c.,

we have made arrangements for the establishment of Correspondents at Washington and other central points, whose competency and fidelity have been fully proved, and whose enterprise and industry will be equal to their responsible duties. We assure all who may favor us with orders that we shall endeavor to furnish them with as good a newspaper, as useful, prompt and interesting in all its departments, as it is possible to make. The sentiment will be DEMOCRATIC, and the aim the promotion of the public welfare; presenting opinions fairly, arguments free from acrimony, and all in a spirit of candor and good temper.

Aa Invaluable Medicine for the Purifying of the Blood.

Dr. J. W. Poland's

HUMOR DOCTOR!

A Positive Remedy for all kinds of Humors,

PARTICULARLY

Erysipelas, Nettle-Rash, Salt-Rheum, Scrofula, Carbuncles, Boils, and Piles.

THIS excellent medicinal compound was first prepared by Dr. J. W. POLAND, in 1847, and was then employed with great success in expelling Humors from the blood; but in 1848 a medical friend, who was quite celebrated as a physician, especially in the treatment of humors, suggested some important improvements, which were adopted and which has made it (so the people say) the verv best remedy for all kinds of humors known to the "the faculty."

The HUMOR DOCTOR cures Scrofula, Salt-Rheum, Erysipelas, Canker, Piles, Nettle-Rash, &c. Numerous individuals, who have used this remedy for Erysipelas, give it the most flattering recommendations.

This preperation is composed entirely of vegetables, among which are Sarsaparilla, Yellow Dock, Noble Pine, Mandrake and Bloodroot.

When the originator lived in New-Hampshire, at Goffstown Centre, for the space of thirty or forty miles around, and in Manchester particularly, the Humor Doctor was well known and highly valued for the numerous and wonderful cures which it effected. Though manufactured in large quantities the supply was frequently exhausted, and purchasers had to wait for more to be made. In that region some very severe cases of Erysipelas were treated with,—and they were cured! Eryslpelas sores, or carbuncles,—those ugly, painful ulcers,—were entirely removed wherever this medicine was faithfully used. So it was with Srcofula and Salt-Rheum. The Humor Doctor cured them.

Within the last ten years this valuable remedy has so increased in popularity that now it is more largely used all over New-England than any other one preparation for cleansing the blood, and restoring the system to its healthy condition. Throughout the Western States it is now meeting with great success wherever it has been introduced. It is free from any dangerous drugs, is pleasant to the taste, safe yet sure and effective in its action.

TARRANT'S EFFERVESCENT SELTZER APERIENT

WHAT ARE THE EFFECTS OF

TARRANT'S EFFERVESCENT SELTZER APERIENT?

This is a question which the public have a right to ask, and it has also a right to expect a candid, straight forward and satisfactory reply. The answer shall be given fairly and squarely, from the personal testimony of thousands who have used the preparation during the past thirty years. These competent witnesses declare over their own signatures that the preparation will—

Promptly relieve Indigestion,
Regulate the Flow of Bile,
Cure every Species of Headache,
Tranquilize the Nervous System,
Refresh and Invigorate the Weak,
Promote Healthful Perspiration,
Mitigate the Pangs of Rh umatism
Neutralize Acid in the Stomach,
Cleanse and Tone the Bowels,
Cheer the Depressed Spirits,
Assist the Failing Appetite,
And cure Costiveness.

Those who have tested the preparation in their own case, or in cases of their friends, are of course the best judges of its merits, and the above summary is simply a condensation of a portion of their testimony, covering a period of about twenty-three years, and which embraces the testimony of eminent chemists and physicians.

DR. JAMES R. CHILTON, the GREAT CHEMIST, says: "I know its composition, and have no doubt it will prove most beneficial in those complaints for which it is recommended."

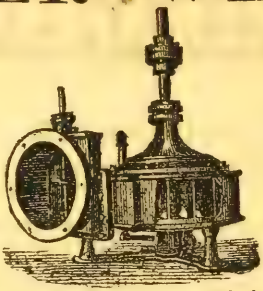
TYLER'S IMPROVED TURBINE WATER WHEEL,

Patented in 1855, 1856, 1858 & 1864.



Tests of Tyler's Turbine Water Wheels.

Claremont, Nov. 11, 1862.

We the undersigned certify that on this day we witnessed tests of an 18 inch Tyler Water Wheel, of which the following table shows the result. Three tests were made, with each different weight, and the result given is an average of the three:

No. of Test.	Time in Seconds.	Head of Water.	Distance Raised.	Weight Raised.	Amount of Water Disch'ged.	Size of Wheel.	Per cent. of Power for Wa'r used
1	23	6 feet.	25 feet.	700 lbs.	.97	18 inches.	76.76
2	22	do.	do.	687 "	.94	do.	76.55
3	21	do.	do.	675 "	.90	do.	77.94
4	21	do.	do.	667 "	.88	do.	79.40
5	20	do.	do.	650 "	.82	do.	83.07
6	19½	do.	do.	637 "	.81	do.	82.77
7	19	do.	do.	625 "	.77	do.	85.03
8	19	do.	do.	612 "	.77	do.	83.26
9	18	do.	do.	600 "	.76	do.	82.23

Average percentage of power for the water used in the above nine tests, 80.89. Best result, 85.03.

The tests were made in the most careful manner, and we believe the measurement of water, head and fall, were as accurately made as could be done in any way. The water was measured in a box 8 feet square, marked off into hundredths of feet in hight. The weight was raised by a rope running on a pulley 30 inches in diameter, over head, upon a drum 11 inches in diameter, geared from the wheel. The weight was determined by an accurate platform scale, and was drawn twenty-five feet in each test. The Wheel tested is the same in every respect as those made for purchasers.

JONAS LIVINGSTON,
ARNOLD BRIGGS,
OTIS F. R. WAITE.

We the undersigned, practical Millwrights, certify that we assisted in making the above tests of the Tyler Water Wheel, and that the results as given are correct.

The superiority of these safes for the purposes for which they are constructed, has become too thoroughly established throughout this country and parts of Europe, to require the publication of letters of commendation, even had we the requisite space. We assert without fear of successful contradiction, that, for years, no article has been presented to the public, which has been so largely used, and which has given such unqualified satisfaction. The universal testimony is: "We would not do without one for several times its cost." Insurance Companies approve of their use. The original design of these safes, was to furnish a vessel which should securely hold volatile oils and prevent leakage and evaporation. Their use has established the fact that they are superior to any other vessel for securing oil in case of fire. We have known several instances where the wood work of the Safe has been nearly consumed by fire and **the oil which it contained not ignited.** An instance recently occurred in N. Y. City, and J. O. Dorr, of 339, Greenwich St., writes: "Your Safe proved a safe indeed, to my brother, A. H. Dorr, whose store was on fire a few days since. The outside of the Safe was charred through, and the blocking upon which it rested, burned out, so that it fell partly over and yet the **three barrels of oil which it contained did not take fire.** Quite a curiosity I assure you."

We give below the names of a few Eastern Manufacturers, who have the Safes. We have omitted Merchants, but will, upon application, send a list of some hundreds.

Note by the Publishers.

The Publishers of this little volume, so well known and so indispensable to every Vermonter, have but this small space into which to condense all they would say on this their annual appearance. And first, they thank all their patrons for their indulgence in *waiting* for the issue of 1868. If they have not appeared quite so early as was expected this year, they crave pardon for their seeming dilatoriness. But while doing so, they also call attention to the magnitude of the work when considered in its details. Many an octavo volume contains not a tenth part of the matter which is compressed into this little work. The Publishers invite criticism as to the manner in which it has been done; not that they think it *perfect*, but that they wish to improve in the next volume.

Special thanks are due to those Town Clerks and other gentlemen who have aided in furnishing the facts for the Business Directory. Without their aid a good Register would be impossible: if their aid were not gratuitous, the price of the book must be double—they thus are public benefactors. And, what shall we say of the Advertisers? They not only inform you where you can get the most desirable things, but they, too, *help to pay the bills*. We commend them, one and all, to the patronage of our readers Some of them are old, familiar names; they are here because they have found that they could no-where else find more intelligent readers; and the new are here, doubtless, because they see the prosperity which has resulted to the old by walking with us. "Finally, brethen, farewell"—May we meet again, another year, in peace and prosperity.

To every one, whether old or new subscriber, who will send to the publishers a full subscription for a year, ($2.50), will be sent free a copy of H. L. STEPHEN'S brilliant picture, "THE QUACK DOCTOR," representing a sick Brahman Rooster, surrounded by his anxious family, receiving a call from a Rouen Drake. The picture, 9½ x 13¾ inches on paper 16x20, was painted by H. L. Stephen, the most famous artist in America in this class of subjects, and is reproduced for *the subscribers to the Riverside only*, in fac simile colors, same size as the original. Those who send in their subscription first will receive the first copies. It is a bright, amusing picture which is destined to be immensely popular, and is richly worth $5 00 at retail.

Terms of Subscription to the Riverside.

$2.50 a year in advance, (to Clergymen and Teachers, $2 00); three copies, $6.50; five copies, $10; ten copies, $20 and an extra copy *gratis*. Single copies, 25 cents.
